Ask Pay Board To OK State Wage Increase

COLUMBUS, Ohio (AP) — Ohio employees could be in for a \$7 million Christmas bonus if the federal Pay Board acts soon on retroactive salary increases the state has been holding since last March.

The money is part of a \$50 million pay raise package approved by the legislature last Dec. 26. The Pay Board did not clear the increases until mid-March and refused to allow them to be made effective as of December.

That left in limbo some \$5 million appropriated for the raises from Dec. 26 to the date of the board's action for state employees and another \$1.5 to \$2 million for state university and county workers.

Four state employee organizations quickly filed suits claiming it was illegal for the state to withhold money appropriated for raises. The state, meanwhile, began thinking about other ways to get the money to the workers.

The Pay Board said in its March ruling that the state could reapply to the board Nov. 14 for permission to pay out the retroactive increases.

Ohio Personnel Director Paul Corey says his staff is currently preparing a formal application for the board, but he declined to predict how the board would rule.

"I was so optimistic the last time," he said. "So this time I'm not saying anything. Can you blame me?"

The four public employee union suits against withholding of the money have been set aside pending board action on Ohio's application.

State Employees Union chief Herschel Sigall said he has been before the board himself in recent weeks, but he declined to say much about what he learned.

"I've never understood Ohio government, but the federal government blows my mind," he said. "Under their previous ruling they could have acted already. I hope they do soon. We're certainly in no position to force them to act."

Corey said that if the board denies Ohio's request the state might be able to use the funds instead to set up additional health or life insurance benefits.

Ohio's 'Bogus Ballot' Squad To Check On Double Voting

COLUMBUS, Ohio (AP)—A 60-day hunt for Ohio voters who cheated by voting twice in the Nov. 7 election is scheduled to begin next month, soon after the official canvass Dec. 6.

It all depends on the state's 88 county election boards, some of them beset by recounts in local contests.

"We hope to have the official canvass Dec. 6," said Secretary of State Ted Brown. "We would like to have it by then, but it depends on the boards. We are contacting today those elec-

tion boards who haven't sent us their official counts."

Cuyahoga, Summit and Hamilton counties were among those boards.

Ohio's ballot box fraud squad will consist of a half dozen fieldmen in the secretary of state's office and the county boards. They will mingle their detective work with other standard election tasks over a two-month period.

A similar, but smaller, survey after the May 2 Democratic primary turned up just on case of double-dipping, the case of a county employee in Lake County.

"The man wasn't prosecuted," said James Marsh, the secretary of state's election council.

"I know he lost his job," Brown said. "I don't know how you'd figure that case. You know, if you voted in the May primary in Ohio and then moved to Michigan and voted there, I don't know how you'd pin it down."

"I guess you'd have to ask if the man voted twice for President. That would be double voting."

The danger of double voting came into focus when the U.S. Supreme Court ruled college students could vote in the locations of their schools.

On the other hand, the students could legitimately register both at their home town and at the university. Legally they can vote only in one location.

Southern U Probe Resumes

BATON ROUGE, La. (AP) — Gov. Edwin W. Edwards has assured a black investigating committee that police officers would be prosecuted if it were found that they deliberately shot and killed two students at Southern University.

But he emphasized that, in his opinion, student "troublemakers" were primarily to blame for the Nov. 16 campus confrontation in which the two young blacks died of buckshot wounds at the predominantly black university.

"These were troublemakers. They didn't want to have peace and quiet," Edwards said on the opening day of hearings by a special Black People's Committee of Inquiry, working in competition with an official investigating body headed by state Atty. Gen. William Guste.

Nixon, Thieu Aide To Meet

WASHINGTON (AP) — President Nixon scheduled a meeting with a personal emissary from South Vietnamese President Nguyen Van Thieu Wednesday to discuss Vietnam cease-fire negotiations.

The negotiations between presidential security adviser Henry A. Kissinger and North Vietnamese negotiator Le Duc Tho are scheduled to resume in Paris on Monday.

Nixon is to confer with Nguyen Phu Duc, described by White House Press Secretary Ronald L. Ziegler as Thieu's special representative.

In Saigon, meanwhile, U.S. Ambassador Ellsworth Bunker provided Thieu with a report on Kissinger's most recent meetings with President Nixon.

Kissinger met with Nixon twice Monday, but Ziegler declined to say what was discussed, except to warn that the current break in the Paris talks is no cause for pessimism.

Duc's meeting was requested by the South Vietnamese. The top Thieu aide flew from Saigon on Tuesday, and was to meet with Nixon at either the White House or the presidential retreat at Camp David, Md., Ziegler said.

A possible topic might be a report from Saigon that Thieu is seeking direct talks with the North Vietnamese before any peace agreement is signed.

Thieu has dispatched his closest adviser, Hoang Duc Nha to Paris, where sources said he would deal directly with Kissinger when the American returns Sunday for the new round of discussions. Thieu wants Nha to sit in when the secret talks resume, the sources said.

Also in Paris, North Vietnamese negotiator Tho met with Mme. Nguyen Thi Binh, chief of the Viet Cong delegation to the public Paris peace talks.

Welfare-Work Plan Started In California

Raises Hopes Of Cutting Down Increased Costs

SACRAMENTO, Calif. (AP) — California's able-bodied welfare recipients are beginning to trade welfare grants for pay checks under a mandatory work program, state officials say.

One-time recipients are working as auto mechanics, busboys, sheet metal workers, barbers, warehousemen and in other fields, says Bill Lawson of the Department of Human Resources Development.

In the six counties where the 4-month-old program is operating, 2,707 welfare recipients have been classified as employable, Lawson said. Of that total, 1,127 — or 42 per cent — are on regular jobs in private industry, 230 others are in training and 184 have been given "work experience assignments," he reported.

An additional 371 have been kicked off welfare rolls for refusing to take a job or training, Lawson added Monday.

Those for whom the state's unemployment office can't find a job immediately in the private sector are working for local governments in various jobs such as school crossing guards and parking lot attendants, Lawson said. Their only pay is their welfare checks.

"They're not just raking leaves," Lawson said. "It's work that needs to be done but otherwise wouldn't be done without raising taxes. And it gives them work experience, don't forget that."

The department claims more than 50 per cent of the recipients have moved into private jobs or job training and only about 7 per cent are in public service work.

Jets Bomb Civilians In Vietnam

SAIGON (AP) — Half a dozen American planes supporting South Vietnamese troops accidentally dropped several 500-pound bombs on a populated area south of Da Nang Monday, killing 19 civilians and wounding 29, the U.S. Command announced today.

Field reports said about 10 bombs fell in the area 2½ miles west of the provincial capital of Hoi An and about 15 miles south of Da Nang.

"The cause of the accident is not known at this time," the U.S. Command said. "An investigation is being conducted."

The Command said two U.S. Air Force F4 Phantoms and four Corsairs from the 7th Fleet carriers were involved.

It was one of the worst such incidents reported in several months.

The Command said it had no other details immediately available.

Meanwhile, North Vietnamese forces kept up their heavy artillery attacks on South Vietnamese troops trying to broaden their area of control in Quang Tri province, just below the demilitarized zone.

It passed the House March 22, and since that time has been under the study of the Senate Judiciary Committee. More than three dozen amendments have been tacked on by the committee. They will send the bill back to the House and possibly to a conference committee to iron out differences.

Romney Sets 'Truth-Seeker' Group

WASHINGTON (AP) — George Romney's four-year crusade as secretary of Housing and Urban Development to make the government do more for the cities and do it faster, is ending.

At age 65, Romney announced Monday he'll step out of government to try to influence things in a private role by gathering round him a

group of "truth seekers and communicators."

At HUD, Romney said he's learned there are built-in limitations in government which make "the achievement of fundamental reform too dependent upon a crisis."

Announcing his resignation effective with the confirmation of a successor, Romney stopped short of directly criticizing President Nixon. And he insisted he has not become disillusioned.

"Just say I have an understanding that I didn't have in 1960 or 1969," he said.

Romney, a former president of American Motors and once governor of Michigan, said neither Nixon nor Sen. George McGovern, had approached the real issues during the presidential campaign.

He defined the real issues as the problems of the cities, the excessive concentration of union and corporate power and

the expansion of the federal government.

As yet, only the rough outlines are visible of Romney's plans for reforming the federal government from the outside.

State Fair Profit \$7,051

COLUMBUS, Ohio (AP) — The 1972 Ohio State Fair's 12-day run showed a profit of \$7,051, an audit from the office of State Auditor Joseph T. Ferguson showed today.

The audit showed the fair this year cost the state \$2,389,721 while income totaled \$2,396,772. Fair Manager Victor Lucas said wet weather during the fair cut attendance and the predicted figure of 2.5 million visitors wasn't reached. Paid attendance this year totaled 2,269,993.

Lucas said the fair is not intended as a money maker and any profit is reinvested in the annual event.

The audit was critical of some fair operations, saying: "The accountability of the advance sale of admission tickets, stickers, exhibitor's tickets, trailer parking and percentage fees on certain concessions continues to be less than satisfactory."

Private citizens will gather information designed to lead government to public solutions of problems.

"Such a body of truth seekers and communicators could create an enlightened electorate so that the parties and their candidates would find it to their advantage to seek voter support on the basis of the real issues rather than appealing to public and frequently superficial concerns of the moment," he said.

Gas Turbine For Autos?

WASHINGTON (AP) — The government has awarded Chrysler Corp. a research contract to find out if gas turbines can compete with internal-combustion car engines and meet antipollution standards.

The Environmental Protection Agency, in announcing the award Monday, said the contract may eventually total \$6.4 million.

Information resulting from the project will be available to the entire auto industry, an EPA spokesman said.

He said the aim of the contract is to develop and test gas turbines to determine if they can compete with internal-combustion engines in performance, fuel economy, reliability and cost while meeting federal antipollution standards for 1976 cars.

The gas-turbine tests, however, would not be completed in time to affect 1975 production-model cars.

Push Action On Comprehensive Criminal Code Changes

By ROBERT E. MILLER
Associated Press Writer
COLUMBUS, Ohio (AP) — The Ohio General Assembly hopes to finish in the next few weeks the first major revision in the state's criminal code in more than 150 years.

The present bill, almost ready for a Senate floor vote, has been in the making for about six years and represents the efforts of three different sessions of the legislature.

It passed the House March 22, and since that time has been under the study of the Senate Judiciary Committee.

More than three dozen amendments have been tacked on by the committee. They will send the bill back to the House and possibly to a conference committee to iron out differences.

At any rate, Senate Judiciary Chairman Max Baucus, R-Idaho, says he believes the non-partisan measure

should be acted upon before the 109th General Assembly adjourns next month.

If not, Dennis points out that the voluminous bill would have to undergo the entire legislative process all over again next year, including review by judiciary committees of both houses. The House already has a new judiciary chairman, Rep. Arthur Wilkowski, D-79 Toledo.

As a result of Democratic

takeover of that chamber in the Nov. 7 election.

Among its many provisions probably will be a proposal to deal with the issue of capital punishment, clouded by a decision of the U.S. Supreme Court which outlawed the death penalty in most situations. The Senate committee last week voted down an amendment which would have done away with capital punishment completely.

The committee is considering another amendment which would allow the death sentence to be imposed in specific cases and in a specific manner. It would require that a jury would decide as to the guilt or innocence of a defendant, and that a three-judge panel determine life or death.

The Legislative Service Commission, fact-finding arm of the legislature, made a 54-page analysis of the bill which it said

is intended "to provide a compact yet complete substantive criminal code, easier to understand and apply, meeting modern needs, and proving the necessary foundation for effective crime prevention, law enforcement, and treatment of offenders."

Although many of the bill's provisions are technical—such as one that spells out rules for "construction" of criminal statutes—others seek to clarify old

definitions and provide new ones to increase the efficiency of law enforcement agencies, courts, and corrections personnel in preventing and detecting crime and dealing with offenders.

The bill defines jurisdiction, venue, and limitation of criminal prosecutions. It states the basis for criminal liability and reduces to four the "culpable mental states" required to

Ohio's 'Bogus Ballot' Squad To Check On Double Voting

Teays Valley's Board of Education accepted the resignation of Mrs. Esther Duvall, its board clerk, at the November meeting Monday night.

Mrs. Duvall requested release from her position effective at the first board meeting in 1973, but will remain in a consultant capacity to train a new board clerk. A committee is now interviewing applicants for the job and should employ the replacement at the board's Dec. 11 meeting.

Bids received for the purchase of a 1972 stationwagon were rejected. The board indicated that the offers were not high enough. Members will receive sealed bids at the Dec. 11 meeting and have set a minimum of \$3,495 which they will accept for the vehicle.

Sale of three spare buses was also authorized. The district will advertise for sealed bids to be received at the board's reorganization meeting in January.

ALSO involving transportation, it was approved to use school-owned cars to transport members of the wrestling team for scheduled matches.

Approval was given for district schools to set up sale of school supplies through a school organization. Superintendent Lutz noted that Walnut School, which has followed the district tradition of putting school store operation in charge of the principal and secretary, has turned this project over to the PTA. Other schools in the district who offer tablets, pencils and other school supplies may take similar action.

The board released two students in the Teays Valley district to attend Circleville schools.

Discussed was the possibility of having a second parent-teacher conference, with the board indicating favor on this action. A definite decision and date will be settle later.

Permission was given for a New York touring company to present two performances of "Pizzochio" in the high school auditorium Jan. 13. The Little League will sponsor a Donkey Baseball game Dec. 16 in the Ashville gym.

Fred Brobst was authorized to attend the Mid West Band Clinic in Chicago the middle of next month.

A comprehensive plan for the district's special education offerings was compiled and presented to the board to meet the requirements of recent Senate Bill 405. The board also acted to participate in cooperative services for speech and hearing supervision as included in the master plan.

A request from the village of Ashville for easement for the formation of a new storm sewer district was presented and the board is now investigating the proposal.

Board members are considering alternatives in presenting a new bond issue to the citizens. Its actual form and time of presentation, either next May or November, is to be decided later.

Attending the meeting were Superintendent Lutz, clerk Mrs. Duvall, and members Everett Beers, William Hinkle, Harold Peters, Jack Warner and Mrs. Janet Bluck plus all school principals.

son Rockefeller and former Treasury Secretary John B. Connally would not figure in new administration appointments.

Laird and Romney had previously announced their intentions of leaving their Cabinet posts at the end of Nixon's first term.

But much of the President's 21-minute talk to the dozen newsmen at his Catactin Mountain retreat here Monday seemed aimed at discouraging speculation that he would rely less on his Cabinet in his second term than during his first four years.

"While there will be cuts in personnel around the government," Nixon said Monday, "the biggest cuts will be made in the White House staff itself."

He said "we are going to put greater responsibility on individual Cabinet members for various functions that previously had been that of the White House staff."

Stock List Up Slightly

NEW YORK (AP) —Stock market prices edged modestly higher today but showed little enthusiasm for a major rally.

The Dow Jones average of 30 industrials at noon was up 2.33 at 1020.09.

Advances led declines on the New York Stock Exchange by 7 to 5.

On the Big Board, Mattel, which reported a nine-month profit compared with a year-earlier loss, was up 1 to 12 1/2. Earlier a block of 200,000 shares crossed the tape at 12, up 1/4.

On The America Stock Exchange, Ponderosa Systems was up 2 to 6 3/4. The company says it knows of no reason for the interest in its stock.

The Big Board index at noon was off 0 1/2 at 65.80, and the American Stock Exchange price-change index at noon was up .03 at 26.33.

Woman Hit, Robbed By Home Intruder

A Logan Elm Village homemaker was attacked and robbed of about \$800 in jewelry when she surprised an intruder in her home 8:50 a.m. Monday.

The woman, Mrs. Charles Fontaine, 28, 320 Mohave Drive, was treated by a physician for forehead abrasions.

She told Pickaway County Deputy Sheriff Jim Deal that she was in bed when she heard the intruder in her front room. She confronted the man in the living room by grabbing his arm.

The assailant struck her n the head, apparently with a screw driver, and ran out the back door. He allegedly grabbed four rings which were on the kitchen sink.

The missing rings included a wedding ring set valued at \$200, a synthetic diamond ring valued at \$25, a silver ring with two sapphires valued at \$175 and a silver ring (with two circles containing 5 diamonds each) valued at \$400.

ranking Nixon administration official to resign since the President began working on organizing and staffing his second term.

He had, however, indicated as early as last August his plans to leave, though not until after the Nov. 7 election.

Romney's frequently open unhappiness in his role as Cabinet officer stems in part from his success as the man who put new life into American Motors and as the innovative governor of one of the most populous states.

Romney has always been happiest and most effective when he has been the boss with a responsibility only to himself or his constituents.

Romney was once a missionary for the Church of Jesus Christ of Latter-Day Saints (Mormon) and remains a devout member.

As HUD secretary, Romney was never really trusted by Nixon's top staff. They found him the same impatient evangelist whose presidential ambitions were thwarted in 1968. They doubted his conversion and loyalty to the Nixon presidency, despite his speeches to the contrary.

WASHINGTON (AP) — The government claims its nationwide "rent watch" has been a rousing success, preventing thousands of illegal rent increases while turning up only a handful of violations.

CU Urges Legalization Of Marijuana

WASHINGTON (AP) — Consumers Union, the nonprofit product testing organization, has recommended legalization of marijuana.

"Marijuana is here to stay," said a report begun by CU in 1969. "No conceivable law-enforcement program can curb its availability."

CU suggested that all laws controlling marijuana be repealed and replaced with controls only on the cultivation, production and marketing of the stimulant.

It also recommended that all those imprisoned for selling or possessing marijuana be released.

"It's much too late to debate the issue," the report said, adding: "We do not recommend legalization because we believe marijuana is 'safe' or 'harmless.' No drug is safe or harmless to all people at all dosage levels or under all conditions of use."

Instead, the report said, CU is seeking an end to the marijuana black market which has led to the "criminalization and alienation of young people."

The report also dealt with hard drugs and alcohol, recommending that drug acts be treated with controlled maintenance programs. The dangers of alcohol should be advertised by affixing warning labels similar to those on cigarette packages, it said.

Change Welfare Eligibility Rule

COLUMBUS, Ohio (AP)—The State Controlling Board agreed Monday to a slight change in eligibility standards for welfare recipients who are patients in nursing homes and hospitals.

The alteration increases from \$235 to \$240 the monthly income allowed such patients without loss of public assistance. A Welfare Department official explained that the change was needed because some veterans receive monthly benefits of \$239.

Social Security gains by increasing rents.

The Internal Revenue Service investigated more than 90,000 rental units in a two-month period, finding only 24 minor violations and one violation that has been turned over to the Justice Department for possible prosecution.

In addition, IRS received 2,178 complaints. It has completed investigations of 1,462 of the violations, most of them so technical that they were corrected immediately.

IRS has assessed 15 landlords with penalties totalling \$28,819. Four of these cases have been settled and collected and the remainder are on appeal.

IRS says the rent watch is still in effect and reports of illegal rent increases leveled on the elderly receive expedited treatment.

Officials at the Cost of Living Council said the rent watch will continue as long as needed. They dismissed any notion that it would be abruptly dropped, giving landlords a chance to boost rents of old people.

Trudeau Shuffles Cabinet Members

OTTAWA (AP) — Responding to last month's election setback, Prime Minister Pierre Elliott Trudeau has made sweeping changes in his Cabinet, bringing in 8 new persons and shifting 10 others. Among the 11 ministers retaining their posts Monday was Foreign Secretary Mitchell Sharp. Jeanne Sauve, 50, a journalist from Montreal, was named minister of science, the first woman in the Cabinet in four years.

Trudeau said the changes reflected the lessons learned in the Oct. 30 elections when his Liberal party lost nearly 40 seats in the House of Commons, including those held by four Cabinet members. Three others did not run for re-election. The lineup in the House when it meets Jan. 4 will be 109 Liberals, 107 Conservatives, 31 New Democrats, 15 Social Credit members and two independents.

Clever Jail Inmates Run Up \$4,700 Bill For Phone Use

YOUNGSTOWN, Ohio (AP)—Prisoners in the Mahoning County jail are no longer so-laced by free long distance telephone service.

Unbeknownst to sheriff's deputies, a handful of prisoners managed to run up a \$4,800 long distance bill after devising a series of dialed numbers that connected a special prisoners phone into long distance circuits.

The situation was finally discovered when county officials notified the jail early in November that it had used up its entire budget on the phone bill. Since the monthly phone bill for the prisoner's phone was only supposed to be \$42 a month, jail administrator Capt. John Prystash started checking.

He said one of the prisoners finally showed him the special code that was used in the dialing.

"The phone company wouldn't believe it either, so I brought them in and had to show them," Prystash said. The company's technicians came in later to fix the circuit, "and they didn't believe it, so we had to show them too," he said.

"Some of these guys are pretty sharp," Prystash said. "And they're here 24 hours a day."

Now the circuit is long distanceproof, he said, and the phone company has dropped the \$4,800 bill since the original contract hadn't called for long distance service.

Prystash said the prisoners will still be allowed access to

the phone and that only "seven or eight guys altogether" were involved in the long distance calls. The phone is provided on a scheduled basis for prisoners to call their wives and families, he said and "it's been a good thing really."

"Sometimes the prisoners have a problem at home or need to get word out and then they start getting upset about it if they can't. That's when you start having security problems," he said.

Prystash said the calls, to Florida, Michigan and California numbers, were spaced out over several months. He said he made some attempt to find out exactly who made the calls, but then he gave it up.

"I called a couple of the numbers," he said, laughing. "But, you know, these guys were pretty sharp. I don't know him, was about all they'd tell me."

TV Board Acts On Resignation Of Mrs. Duvall

Teays Valley's Board of Education accepted the resignation of Mrs. Esther Duvall, its board clerk, at the November meeting Monday night.

Mrs. Duvall requested release from her position effective at the first board meeting in 1973, but will remain in a consultant capacity to train a new board clerk. A committee is now interviewing applicants for the job and should employ the replacement at the board's Dec. 11 meeting.

Bids received for the purchase of a 1972 stationwagon were rejected. The board in-

dictated that the offers were not high enough. Members will receive sealed bids at the Dec. 11 meeting and have set a minimum of \$3,495 which they will accept for the vehicle.

Sale of three spare buses was also authorized. The district will advertise for sealed bids to be received at the board's reorganization meeting in January.

ALSO involving transportation, it was approved to use school-owned cars to transport members of the wrestling team for scheduled matches.

Approval was given for district schools to set up sale of school supplies through a school organization. A comprehensive plan for the district's special education offerings was compiled and presented to the board to meet the requirements of recent Senate Bill 405. The board also acted to participate in cooperative services for speech and hearing supervision as included in the master plan.

A request from the village of Ashville for easement for the formation of a new storm sewer district was presented and the board is now investigating the proposal.

Board members are considering alternatives in presenting a new bond issue to the citizens. Its actual form and time of presentation, either next May or November, is to be decided later.

Attending the meeting were Superintendent Lutz, clerk Mrs. Duvall, and members Everett Beers, William Hinkle, Harold Peters, Jack Warner and Mrs. Janet Bluck plus all school principals.

Hunter Hurt In Gun Mishap
A 27-year-old Columbus man was treated at Berger Hospital 11:42 p.m. Monday for an accidental gunshot wound suffered while on a hunting trip in Vinton County.

According to the report of Circleville Ptl. Joe Stevenson, Robert L. Compton was hunting at Carmel Hill with three companions.

After hearing a noise near the cabin, Compton took his shotgun and went outside to investigate. He slipped on the step and the gun discharged, hitting him in the right foot.

A companion drove him to Circleville where he was treated for the loss of two toes.

Traditionally, retired persons have faced rent increases shortly after Congress raised Social Security benefits.

"The rent watch is not going to end with a bang, but with a whimper, for precisely the purpose that rents could be raised after it goes off," said one Cost of Living Council official.

An exception to the general trend during the rent watch has been in public housing, where the amount of rent hinges on a tenant's income.

Clever Jail Inmates Run Up \$4,700 Bill For Phone Use

YOUNGSTOWN, Ohio (AP)—Prisoners in the Mahoning County jail are no longer so-laced by free long distance telephone service.

Unbeknownst to sheriff's deputies, a handful of prisoners managed to run up a \$4,800 long distance bill after devising a series of dialed numbers that connected a special prisoners phone into long distance circuits.

The situation was finally discovered when county officials notified the jail early in November that it had used up its entire budget on the phone bill.

Since the monthly phone bill for the prisoner's phone was only supposed to be \$42 a month, jail administrator Capt. John Prystash started checking.

He said one of the prisoners finally showed him the special code that was used in the dialing.

"The phone company wouldn't believe it either, so I brought them in and had to show them," Prystash said.

The company's technicians came in later to fix the circuit, "and they didn't believe it, so we had to show them too," he said.

"Some of these guys are pretty sharp," Prystash said. "And they're here 24 hours a day."

Now the circuit is long distance-proof, he said, and the phone company has dropped the \$4,800 bill since the original contract hadn't called for long distance service.

Prystash said the prisoners will still be allowed access to

the phone and that only "seven or eight guys altogether" were involved in the long distance calls. The phone is provided on a scheduled basis for prisoners to call their wives and families, he said and "it's been a good thing really."

"Sometimes the prisoners have a problem at home or need to get word out and then they start getting upset about it if they can't. That's when you start having security problems," he said.

Prystash said the calls, to Florida, Michigan and California numbers, were spaced out over several months. He said he made some attempt to find out exactly who made the calls, but then he gave it up.

"I called a couple of the numbers," he said, laughing. "But, you know, these guys were pretty sharp. I don't know him," was about all they'd tell me.

Dear Abby: She Agrees To Cruise Sans Marriage

By Abigail Van Buren

DEAR ABBY: Widowed five years after a long and happy marriage, I've found a widow I desperately want to marry. And that's my problem. She refuses to marry me.

I am about average in all respects except one. Financially, I am very well off, but that doesn't seem to influence her. We both have married children who are independent. I never knew this lady's husband, but understand theirs was a good marriage, so I know she's not soured on marriage.

She says she wants her "freedom." I have tried everything to change her mind. My last attempt was a two-carat diamond, which she refused to wear, even on her right hand because of the "implications" (whatever that means.)

I want to take her on a cruise in December. She said she would go sans marriage, but how proud and happy she would make me if she would accompany me as my wife.

How can I persuade her to marry me by December? If any of your ideas are successful, I will send you a postcard from Rome—the first stop on the cruise.

HOPING

DEAR HOPING: My advice

to you is to go on the cruise alone. Send me a postcard anyway, if you have time to write. No man should have to beg or bribe a woman to marry him, so get off your knees and survey the market. Your only chance for winning this woman is to play the field and show some dignified independence. And if that fails, you could be lucky.

DEAR ABBY: Is there any way a woman can buy insurance on her husband's life without letting him know about it?

I know he would have to take a physical and there's no way of tricking him into doing it.

My husband has a real hang-up on this score and we can't even discuss the matter intelligently.

I can't shop around in my hometown for an insurance company that might have an angle on how to accomplish this as I have too much pride to admit to the world that my husband doesn't want to provide for his wife and children in the event of his death.

Please answer this in your column as I'm sure other wives must have the same problem.

ASHAMED AND NOT PROTECTED

DEAR ASHAMED: There is no way you can accomplish this without your husband's signature. Discuss this with your own insurance agent and ask him to suggest an approach that will be effective and inoffensive to your husband.

DEAR ABBY: I have a suggestion for "Out of Excuses" who recently wrote of her concern for her 69-year-old father who continues to drive even though he has failing eyesight.

My staff in the Department of Motor Vehicles handles hundreds of these cases each year, so we understand what "Out of Excuses" and her father are going through. Since he refuses to go for a visual examination, you can arrange for him to take a test of his driving ability and knowledge.

Write to your State Department of Motor Vehicles outlining the problem and in most cases that department will send him a letter requiring him to appear for a re-examination of his driving ability. If it appears necessary, a visual examination by competent authorities will also be required. Your communication will be held in confidence.

Americans Back Nixon On Vietnam

PRINCETON, N. J. (AP) — According to the latest Gallup Poll, about twice as many Americans approve of President Nixon's handling of the situation in Vietnam as disapprove.

The figures for the 265 persons interviewed in 200 localities across the nation were 59 per cent for and 33 per cent against. The rest were undecided.

Gallup said Sunday that this approval was found in all sections of the nation and among most groups of the population. He did not break this down.

The pollster commented that these figures were virtually the same as Nixon's margin of victory over Sen. George McGovern, D-S.D.

The Gallup Poll also said that only 7 per cent of Americans think victory is possible in Vietnam, 12 per cent think the United States will be defeated, 69 per cent think there will be a compromise, while 12 per cent have no opinion.

A majority of Americans, the poll said, do not think there will be a strong enough government in South Vietnam to withstand a Communist takeover after American troops withdraw.

The figures were 47 per cent to 31 per cent who thought the South Vietnamese could manage with 22 per cent expressing no opinion.

Despite the peace talks between Henry Kissinger and North Vietnam's Le Duc Tho, most Americans, the poll said, do not think there will be peace by the new year.

While 35 per cent said they believed an end to the fighting would be reached, 55 per cent said they did not think so and 10 per cent had no opinion.

Education Grants Given To Newsboys

LONDON (AP) — Twenty-six British newsboys and girls have been given the first educational grants awarded by Communicor, an organization set up by the British Newspaper Publishers Assn.

One boy received a grant to study the geology of a Scottish island and another was helped with railway fares to study the state-owned railways.

The grants are each worth up to \$612. Of the 26 successful applicants, 12 already have been accepted for universities.

'Flexitime' Works Well For Swiss Employes

By HANNA NEUERBOURG
Associated Press Writer

ZURICH, Switzerland (AP) — If her party breaks up well after midnight, secretary Roswitha Lohmann, 24, just shows up at her office an hour later than usual the next morning. Her boss greets her with a joke.

Kurt Wagner, 45-year-old quality controller, always leaves early in summer so he

can work in his garden. His manager waves goodbye.

These two — and several hundred thousand others — are benefitting from flexible work week arrangements that have become greatly popular in Switzerland ever since they were first imported from neighboring West Germany in 1969.

No official statistics exist but some experts believe that the work week "a la carte" or flexitime is more widely practiced in Switzerland than in any other industrialized country.

"If I feel like it, I put the cover on my typewriter at 4 p.m. and go shopping," Mrs. Lohmann says. "Shops are not so crowded at this time. And if I want to stay in bed for another hour after a late night I do not have a bad conscience."

Mrs. Lohmann works with a large company at Zug, near here, that offers the most radical variation of flexitime, the "sliding work schedule." Under this system, the employee can

report to work any time between 6:30 and 8 A.M. take up to a 90-minute lunch hour 11:45 A.M. to 2 P.M. and leave between 4 and 6 P.M. during the five-day 44-hour week.

Also, the system allows employees to accumulate a surplus or deficit of up to 15 hours per month that has to be recouped or idled off in the following month. Overtime is counted extra and has to be ordered by the management.

American experiments with a changed work period have fo-

cus chiefly on the four-day week. Perhaps 4,000 companies employing 800,000 workers are estimated to have gone to the four-day week. Employee reaction has been generally favorable.

The majority of Swiss companies using flexitime seem to favor another system, providing for an individually determined schedule to be observed for at least a month.

The flexitime arrangement leaves a daily block of almost six hours during which all employees are around at the same time.

"One advantage of our system is that it forces executives to make more use of dictaphones and other office equipment and to get better organized," said one personnel executive. "Also, you have to realize that in Switzerland a secretary is really a secretary and not a receptionist as executives seem so fond of having in the United States."

"Finally, once they have found their rhythm, employees tend to stick more or less to a certain schedule that seldom varies more than 10 minutes. Anyway, we have never had havoc around here because of flexitime."

"I have yet to hear a complaint about flexitime," says Dr. A. Thommen, a leading official of the Swiss Employers Association. "This is a trend that will not be stopped. I think that within two or three years it will be introduced wherever possible."

Comments from workers and employers list multiple advantages of flexitime. For commuters it may mean less crowded trains, motorists may escape the rush-hour grip, girls find it easier to get a date for a hair-do and fathers can take a daylight glimpse of their families.

Employment analysts say a prime achievement is the increased feeling of individual responsibility. Flexible work schedules "reaffirm the individuality" of employees, a study says.

Employers also note that flexitime often means a better

use of capacities, a point of specific importance for Switzerland with its chronic labor shortage.

"This makes it easier to cover peak periods with additional, temporary personnel," one explained.

Absenteeism is out, too, personnel managers report. "The cases were not rare when people who got stuck in traffic jams went home again and reported ill instead of showing up late at the office. For us, that is a thing of the past."

For obvious reasons, flexitime can be more easily in-

troduced for white-collar staffs than in industrial production that relies on assembly lines and other collective efforts. According to latest estimates, only a fifth of all Swiss industrial workers have flexible work weeks, while in banks and insurances, it is already 50 per cent and more.

Analysts say the trend appears to favor the individually fixed but rigid schedule rather than the radical "sliding" system which requires a return to the card-punching time clock that had been widely discarded in Switzerland.

Bids Sought For Hangar At Airport

The Pickaway County Airport Authority will open bids Dec. 27 for construction of a 10-unit hangar at Memorial Airport.

Persons interested in renting space in the hangar may contact Stout or any other member of the airport authority.

Feds Probe Hughes Setup

OAKLAND, Calif. (AP) — A federal probe into the \$250-million Nevada empire of industrialist Howard Hughes might result in grand-jury indictments in Las Vegas early next year, the Oakland Tribune has reported.

The intensive investigation by a federal team, including 20 Internal Revenue Service agents, probably will continue into next year, the Tribune said in a story in its Saturday and Sunday editions.

The newspaper said the investigation was launched in Las Vegas last spring to track down the millions of dollars Hughes invested in his Nevada holdings after coming to the state in 1966.

The investigation specifically aims to determine if Hughes' various enterprises committed any federal violations, such as income-tax evasion, the Tribune said.

While officials declined to comment, the newspaper said it has learned the investigators are nearing the point where they will seek indictments.

There are nearly 500 million Moslems in the world.

We're planning for a brighter tomorrow. Don't waste gas today.

Columbia Gas is striving to assure that clean-burning natural gas will be available for home, business and industry for years to come. We're reaching out for vast new sources of supply—from Alaska, from under the sea and overseas, from deep under the green hills of Appalachia . . . even from coal.

Achieving these goals is still dependent upon government cooperation.

Our plans for the future are sound. But, right now, natural gas is in short supply.

More clean-burning gas is needed to sustain our community's economic and environmental well-being. There are several things you can do right in your own home to help ease the shortage of valuable natural gas.

Easy things. Like turning your thermostat down to a comfortable temperature and not changing it.

Have a heating dealer check your furnace to make sure it is operating efficiently.

Keep your furnace filters clean. Even on the coldest winter day,

the sun will help heat your home. Open the drapes and let the sun shine in.

At night, or on cloudy days, it's smart to close your drapes to help keep the warm in.

Write to Columbia Gas for a free booklet, "30 Ways to Save."

Observe these suggestions and you'll use less gas.

Help make tomorrow brighter.

Gas is precious, pure energy . . . use it wisely.

Christmas Customs

The American Christmas, preparations for the observance of which are now under way on an unprecedented scale, is a pageant of something old, something new, a great deal borrowed and all of it blended into the happiest holiday of the year.

No other day combines such a harmonious pattern of religious, pagan, seasonal and national traditions from so many corners of civilization.

Three favorite symbols of Christmas are fairly new: the glittering, gift-laden Christmas tree, the greeting card and Santa Claus as he is known today.

The American Santa, rotund and ruddy aboard his reindeer sleigh, evolved from the St. Nicholas of Dutch colonists in New York. The transformation reached full stature in Dr. Clement Clarke Moore's classic, "A Visit from St. Nicholas," in 1823.

Christmas cards are an English con-

tribution. The first cards were designed in the 1840s. The origin of the tree tradition is obscure. The use of Christmas trees was confined to the Rhine country until about 1700. It is believed the tradition crossed the Atlantic with Hessian mercenaries during the American Revolution.

Holly, mistletoe, the Yule log, was-sail bowl and candles are relics of pre-Christmas midwinter celebrations, chiefly festivals of the sun.

Ancient Romans feasted, exchanged gifts and decorated with evergreens during Saturnalia, a December festival honoring the god of sowing.

Abuses of Christmas reached such a pitch in feudal England that parliament outlawed the holiday in 1644. The observance declined until the middle of the 19th century, when Charles Dickens published his "Christmas Carol."

The heartwarming story helped revive the Christmas spirit and Dickens is often called the father of the modern Christmas.

The Puritan leaders in Massachusetts also banned the Yuletide holiday from 1659 to 1681, and a whole generation of American children grew up without Christmas.

Speaking of YOUR HEALTH...

by LESTER L. COLEMAN, M.D.

You recently wrote about a strange form of diabetes. Is that also known as Bronze Diabetes?

Mrs. C. J., Tex.

Dear Mrs. J.: The form of diabetes I referred to was diabetes insipidus. If you recall, this disorder is associated with an almost unquenchable thirst and the outpouring of large quantities of urine. This is caused by a disturbance of the pituitary gland in the brain.

Bronze Diabetes is a rare condition in which there is a retention of pigments in the body that contain iron.

These pigments are then deposited in various organs of the body, mainly the liver and the pancreas. The skin assumes a distinct bronze color from which the condition gets its name.

Neither of these conditions should be confused with diabetes mellitus, an unrelated disorder of the pancreas.

I am at odds with my doctor about something. He has prescribed hormones, but before they are given shouldn't tests be made to be sure of complete safety?

Mrs. P.H.S., Del.

Dear Mrs. S.: The clinical judgment of the doctor often dictates the safe use of certain hormones for a limited period of time.

When an extraordinary or unusual medical condition arises that is considered to be due to a hormone imbalance, extensive studies usually are made.

The science of endocrinology is a highly specialized one since the hormones play a role in the functioning of every organ of the body. The spectacular advances made in this field now make it possible to pinpoint hormone deficiencies, hormone imbalances, and irregularities and to rectify the disturbances by replacing and controlling hormone activity.

When part of the stomach is removed by surgery, does it continue to function normally?

Mr. T.R.E., Maine

Dear Mr. E.: It is remarkable how well a portion of the stomach can function when the rest of it has been removed by operation. Many brilliantly devised operations actually hook up the remaining part of the stomach to the intestines so that good digestion can continue. With moderate eating and well-controlled diet, there is virtually no disabling effect of such extensive surgery.

Open Crackdown On Jaywalkers

MANILA (AP) — Manila police started a crackdown on jaywalkers Monday and rounded up about 3,000 persons, mostly students who were fingerprinted and lectured on traffic discipline.

The campaign is part of President Ferdinand E. Marcos' 2-month-old "New Society" based on national discipline. The country is under martial law.

Violators of the antijaywalking ordinance may be fined from 70 cents to \$7 or jailed from 1 to 10 days.

Republican Agenda

By JEFFREY HART

In a recent column I analyzed the opportunity now open to a Democratic Party that is in obvious transition: to somehow bring peaceably into the party the new talents, energy and money represented by the activist minorities and women, the McGovernite youth, and the chic new millionaires evoked by the McGovern campaign.

A very different sort of opportunity now opens before the Republicans, who are also in transition. The arithmetic of their situation prescribes both agenda and tactics.

First of all, the Southern Strategy has been a smashing success on the Presidential Democratic nominee, any envious Republican will start the race with around half of the 270 votes he needs to win.

But much less spectacularly, the Congressional wing of the GOP has been making its own steady gains in the South.

In the 1972 voting, the Republicans picked up two new Senate seats in the South — Scott in Virginia and Helms in North Carolina — as well as eight new Southern House seats. These gains are especially striking in view of the beleaguered Republican performance elsewhere this year.

And the longer range trends are revealing. In 1960 when Nixon first ran for the Presidency, the Republicans had only eight Southern House members. In 1968 this rose to 26. After the 1972 voting, the figure will be 35. The 12-year growth in the Senate was from two to eight.

What these trends indicate is that the Southern Strategy is viable for the GOP in a long-range sense and not only at

TODAY In History

By THE ASSOCIATED PRESS Today is Tuesday, Nov. 28, the 333rd day of 1972. There are 33 days left in the year.

Today's highlight in history: On this date in 1520, the Portuguese navigator, Ferdinand Magellan, reached the Pacific Ocean after passing through the South American strait which now bears his name.

On this date: In 1821, Panama declared itself independent of Spain and joined the Republic of Colombia.

In 1843, Britain and France recognized the independence of Hawaii.

In 1863, Americans observed the first Thanksgiving Day set aside by national proclamation.

In 1919, the first woman to be seated in the British House of Commons, Lady Astor, was elected.

In 1942, nearly 500 persons died in a fire that destroyed the Cocoanut Grove night club in Boston.

In 1943, President Franklin D. Roosevelt, Soviet Premier Joseph Stalin and British Prime Minister Churchill met at Tehran, Iran, to plan World War II strategy.

Ten years ago: The United States was seeking to get Pakistan to support India in its border hostilities with Communist China.

Five years ago: The U.N. General Assembly refused to seat the Chinese Communists for the 18th time.

One year ago: Jordan's Prime Minister Wasfi Tell was assassinated while attending an Arab conference in Cairo.

the Presidential level but across the board. If the Republicans pursue a center-right course in terms of candidates and policies they can expect to continue to grow in the South. And intelligently pursued center-right policies will not be liabilities elsewhere in the country as well. Ironically enough, it can be the country under the banner of moderate conservatism.

Outside the South, however, another opportunity for growth has opened for the Republicans if they have the imagination to seize it — a very big "if."

This year the GOP made large gains among middle and lower-middle class voters who have tended to vote Democratic in the past but were now turned off by George McGovern and the "new politics."

To hold these voters, let alone expand among them, the Republicans must be much less obviously the party of the fat cats and big business. It would be an excellent idea if the Justice Department, early in the Nixon second term, Democratic regimes.

The GOP choice is clear-cut. The Republicans can become the majority party. Or they can remain a hiatus between the Nixon second term, Democratic regimes.

Baby Gorilla Being Taught Sign Language As Test

SAN FRANCISCO (AP) — with her. Coco signs for her dinner, signs for her drinks and signs whenever she wants to go out.

Coco, a 26-pound baby gorilla at the San Francisco Zoo, is being taught sign language by a Stanford University graduate student in developmental psychology.

Her teacher, Penny Patterson, 25, believes her research with the gorilla is unique and hopes it will help in using sign language as a teaching aid for retarded children.

"Teaching a primate sign language is not new, but I think Coco is the first gorilla to be used in such research," said Miss Patterson in an interview Friday.

She is patterning her research after that of two University of Nevada comparative psychologists who successfully taught a baby chimpanzee 200 signs in five years.

Miss Patterson began working with the 16-month-old gorilla four months ago and now spends up to five hours a day

with her.

In her daily sessions, Coco signals for a drink by placing her thumb to her mouth, asks for food by placing all of her fingers to her mouth and signs to go from one section of her glassed-in room to another by making an outward motion with her hand.

And she's working very hard on the signs for "more" and "no."

"The desire for food and drink are strongly motivational and teaching Coco these signs was relatively easy," Miss Patterson said.

"Sign-language grammar is different from that of any other language, and I hope to learn a great deal from Coco. The order in which she uses the signs is very important, especially when she uses a series," Miss Patterson said.

Chess, Anyone?

If chess boards do not turn out to be one of the more popular items on Christmas lists this year, it will not be because the sport of intellectuals has not taken on a new look.

Chess sets are selling well and interest is soaring in chess clubs and other manifestations of the game.

Much of the response is due to the capture of the world championship by American Bobby Fischer from Russian Boris Spassky, and the bizarre publicity which attended their match. Fischer demonstrated that playing style can

be as great a factor in the outcome as mastery of the board.

On top of that came the San Antonio match sponsored by a businessman-enthusiast. Sixteen of the world's foremost players came to the United States to joust for \$10,000 in prize money. Even Spassky wanted to join the fray, a wish denied by the Soviet Union.

How long the chess rejuvenation will last in the United States is problematical, but long enough one might suspect to prove anew that mastery of traditional moves and concentration still are decided assets.

Bald men are usually more generous to start beggars than men with a full head of hair. They know what it means to be deprived.

The average department-store shoplifter doesn't steal for sentimental reasons or as the result of a sudden irresistible impulse. He steals because he is a thief trying to get something for nothing he doesn't deserve to have.

Only men particularly favored by the gods are permitted the fate of falling in love with, and winning, a pretty, red-haired girl who also has green eyes.

A fool is a guy who goes through life stubbing his toes long after he's old enough to wear shoes.

I can never figure out which is the bigger bore — a successful, pompous lawyer or a pompous, unsuccessful lawyer.

In a group picture of small-town professional men, you can usually pick out the dentist and the undertaker because they have the most winning smiles.

When it comes to their looks, animals are judged even more unfairly than are men. Take the male wolf and male ostrich, for example. Each is a good husband and family man, when it comes to taking care of the kids. Yet, in an animal beauty contest, each would be passed over in favor of the kingly appearing lion. But the male lion is a measly, flea-scratching, lazy husband who lets his more active wife do most of the family hunting — and then insists upon dining first at the kill. Only when his royal appetite is gorged do his lioness and cub get to take a bite.

A reader who knows my dislike for breaded veal cutlets writes in to ask, "How long would you survive in a wilderness if you had nothing but breaded veal cutlets to eat?"

My answer: I'd last long enough to find a native who knew a place where they had something else on the menu. I think any man should be too proud to let breaded veal cutlets be the death of him.

When a woman has too much on her mind, she goes to a psychiatrist. Then, when she has nothing on her mind, she likes to wind up the day by going to a hairdresser.

Speaking of YOUR HEALTH...

by LESTER L. COLEMAN, M.D.

You recently wrote about a strange form of diabetes. Is that also known as Bronze Diabetes? Mrs. C. J., Tex.

Dear Mrs. J.: The form of diabetes I referred to was diabetes insipidus. If you recall, this disorder is associated with an almost unquenchable thirst and the outpouring of large quantities of urine. This is caused by a disturbance of the pituitary gland in the brain.

Bronze Diabetes is a rare condition in which there is a retention of pigments in the body that contain iron.

These pigments are then deposited in various organs of the body, mainly the liver and the pancreas. The skin assumes a distinct bronze color from which the condition gets its name.

Neither of these conditions should be confused with diabetes mellitus, an unrelated disorder of the pancreas.

I am at odds with my doctor about something. He has prescribed hormones, but before they are given shouldn't tests be made to be sure of complete safety?

Mrs. P.H.S., Del.

Dear Mrs. S.: The clinical judgment of the doctor often dictates the safe use of certain hormones for a limited period of time.

When an extraordinary or unusual medical condition arises that is considered to be due to a hormone imbalance, extensive studies usually are made.

The science of endocrinology is a highly specialized one since the hormones play a role in the functioning of every organ of the body. The spectacular advances made in this field now make it possible to pinpoint hormone deficiencies, hormone imbalances, and irregularities and to rectify the disturbances by replacing and controlling hormone activity.

When part of the stomach is removed by surgery, does it continue to function normally?

Mr. T.R.E., Maine

Dear Mr. E.: It is remarkable how well a portion of the stomach can function when the rest of it has been removed by operation. Many brilliantly devised operations actually hook up the remaining part of the stomach to the intestines so that good digestion can continue. With moderate eating and well-controlled diet, there is virtually no disabling effect of such extensive surgery.

Open Crackdown On Jaywalkers

MANILA (AP) — Manila police started a crackdown on jaywalkers Monday and rounded up about 3,000 persons, mostly students who were fingerprinted and lectured on traffic discipline.

The campaign is part of President Ferdinand E. Marcos' 2-month-old "New Society" based on national discipline. The country is under martial law.

Violators of the anti-jaywalking ordinance may be fined from 70 cents to \$7 or jailed from 1 to 10 days.

Republican Agenda

By JEFFREY HART

In a recent column I analyzed the opportunity now open to a Democratic Party that is in obvious transition: to somehow bring peaceably into the party the new talents, energy and money represented by the activist minorities and women, the McGovernite youth, and the chic new millionaires evoked by the McGovern campaign.

A very different sort of opportunity now opens before the Republicans, who are also in transition. The arithmetic of their situation prescribes both agenda and tactics.

First of all, the Southern Strategy has been a smashing success on the Presidential Democratic nominee, any envious Republican will start the race with around half of the 270 votes he needs to win.

But much less spectacularly, the Congressional wing of the GOP has been making its own steady gains in the South.

In the 1972 voting, the Republicans picked up two new Senate seats in the South — Scott in Virginia and Helms in North Carolina — as well as eight new Southern House seats. These gains are especially striking in view of the beleaguered Republican performance elsewhere this year.

And the longer range trends are revealing. In 1960 when Nixon first ran for the Presidency, the Republicans had only eight Southern House members. In 1968 this rose to 26. After the 1972 voting, the figure will be 35. The 12-year growth in the Senate was from two to eight.

What these trends indicate is that the Southern Strategy is viable for the GOP in a long-range sense and not only at

the Presidential level but across the board. If the Republicans pursue a center-right course in terms of candidates and policies they can expect to continue to grow in the South. And intelligently pursued center-right policies will not be liabilities elsewhere in the country as well. Ironically enough, it can be the country under the banner of moderate conservatism.

Outside the South, however, another opportunity for growth has opened for the Republicans if they have the imagination to seize it — a very big "if."

This year the GOP made large gains among middle and lower-middle class voters who have tended to vote Democratic in the past but were now turned off by George McGovern and the "new politics."

To hold these voters, let alone expand among them, the Republicans must be much less obviously the party of the fat cats and big business. It would be an excellent idea if the Justice Department, early in the Nixon second term, Democratic regimes.

The dumping of the Rev. Theodore Hesburgh, formerly of the Civil Rights Commission, was an encouraging sign here; closing down the J. Stanley Pottinger quota operation at the Office of Education would be another good one.

The GOP choice is clear-cut. The Republicans can become the majority party. Or they can remain a hiatus between

the Nixon second term, Democratic regimes.

Baby Gorilla Being Taught Sign Language As Test

SAN FRANCISCO (AP) —

Coco signs for her dinner, signs for her drinks and signs whenever she wants to go out.

Coco, a 26-pound baby gorilla at the San Francisco Zoo, is being taught sign language by a Stanford University graduate student in developmental psychology.

Her teacher, Penny Patterson, 25, believes her research with the gorilla is unique and hopes it will help in using sign language as a teaching aid for retarded children.

"Teaching a primate sign language is not new, but I think Coco is the first gorilla to be used in such research," said Miss Patterson in an interview Friday.

She is patterning her research after that of two University of Nevada comparative psychologists who successfully taught a baby chimpanzee 200 signs in five years.

Miss Patterson began working with the 16-month-old gorilla four months ago and now spends up to five hours a day

with her.

In her daily sessions, Coco signals for a drink by placing her thumb to her mouth, asks for food by placing all of her fingers to her mouth and signs to go from one section of her glassed-in room to another by making an outward motion with her hand.

And she's working very hard on the signs for "more" and "no."

"The desire for food and drink are strongly motivational, and teaching Coco these signs was relatively easy," Miss Patterson said.

"Sign-language grammar is different from that of any other language, and I hope to learn a great deal from Coco. The order in which she uses the signs is very important, especially when she uses a series," Miss Patterson said.

Bhutto Releases Indian Prisoners Held Since War

NEW DELHI (AP) — President Zulfikar Ali Bhutto Monday released all 517 Indian prisoners of war held in Pakistan, Radio Pakistan reported.

Bhutto's clemency was an attempt to focus attention on the 91,000 Pakistanis India captured during the war in Bangladesh last December. India has said it would return them only with the consent of Bangladesh, which said Pakistan must first formally recognize its independence.

The Indians held in Pakistan were captured on the western front during the December war. "You are free from this moment," Bhutto told them during a visit to their camp at Lyallpur, 175 miles south of Rawalpindi.

My name is Angela Kay Jackson. I am 3 years old and I live at Route 1, Ashville, Ohio. My mommy is writing this letter for me.

First I want to thank you for all my presents I received from you last year. I would like to have a Dressy Betsy, a stove and refrigerator set, and a shaker maker and some dishes.

I will leave some cookies and milk for you under the Christmas tree and salt for your reindeer.

Thank you,
Angela Kay Jackson

Dear Santa,

My name is Mike and I am 16 months old. I also have a smaller brother who is 6 months old and his name is Mark.

Mark.

For Christmas I would like to have a tricycle, a Mattel's See 'N Say toy, some cars and trucks, and some clothes. I have been a very good boy.

I would like you to bring my brother something to play with and some clothes too. He is also a good boy.

Please don't forget all the unfortunate kids in the world. They should have a Merry Christmas too. We will leave some cookies and milk under the tree for you.

We love you,
Mark and Michael

Engagement Announced

PAULA SUE WEAVER

Mr. and Mrs. Paul F. Weaver, Route 4, Circleville, announce the engagement of their daughter, Paula Sue, to Alan James Sorensen, son of Mr. and Mrs. James Sorensen, Route 1, Prosser, Wash.

The bride-elect was graduated from Ohio State University and is employed as a teacher in Logan Elm School District. Her fiancé graduated from Big Ben Community College, Moses Lake, Washington. He is currently engaged in farming with his father.

The couple have chosen Dec. 17 as their wedding date.

Yule Plans Made By Guild 16

Mrs. Charles Fullen invited Guild 16 to her home for the November meeting. Miss Reba Lee was assisting hostess.

Thirteen members were present.

Mrs. Phyllis Kline, chairman, conducted the business meeting after refreshments were served by the hostesses. Reports were heard from the secretary, treasurer and sunshine fund.

The annual Christmas party was discussed and a committee of Mrs. Ellen West, Mrs. Bishop Given and Mrs. Frank Bowling will be responsible for the food and decorations.

A luncheon and gift exchange will be held at Pickaway Arms 1 p.m. Dec. 12.

Contest prizes were won by Mrs. Jane Southward and Mrs. Bernice Immell.

Wedding Announced

Mary Helen Miller and Paul McCain, Ashville, were united in marriage Saturday evening at the Ashville United Methodist Church.

Cap Mother's Club To Honor Charter Members

The Capital University Mother's Club will honor Past Presidents and present charter members at their 20th Anniversary luncheon, Friday, Dec. 1 at noon in the South Dining Room of the Campus Center.

Co-chairmen for the luncheon are Mrs. Hilmar Grimm, Mrs. Theodore Liefeld and Mrs. Z. W. Wulber.

Gene Allen of the Music Conservatory will be guest soloist on the program.

Reservation chairman is Mrs. Theodore Schalinske, 788 South Remington Road. Members may bring guests.

Guild 49 Plans Yule Gift Exchange

Berger Hospital Guild 49 met recently in the home of Mrs. Richard Jeffries, 566 Mowrer Road, for their November meeting. There were nine members present.

A short business meeting was conducted by Mrs. Harold Leonard, chairman.

During the meeting it was announced that guest night will be observed at the January meeting. A gift exchange between secret sisters will be held at the Dec. 14 meeting when the group will hold their Christmas dinner at the Bavarian House, German Village.

The remainder of the evening was spent finishing projects for the Christmas bazaar.

Refreshments were served by the hostess, assisted by Mrs. Tom Copeland.

Child Study League Topic Is First Aid

The November meeting of the Child Study League was held Monday, Nov. 20, in the home of Mrs. O. L. Hoekman with Mrs. Pat Miller and Mrs. Linda Harden serving as co-hostesses. Mrs. Elaine Bowman was the guest speaker for the evening. Her topic was "The Importance of First Aid."

Plans were made for helping a needy family at Christmas. Members were asked to bring their items for the family to the December meeting. A gift exchange for members is also planned for the meeting, which will be held at the home of Mrs. Paul Smallwood, Route 1, Circleville.

Gardenwood Club Meeting Postponed

The monthly meeting of the Gardenwood Club, originally scheduled Wednesday, has been postponed one week until 8 p.m. Dec. 6 in the home of Mrs. Charles Brackett, 609 Garden Parkway.

A workshop featuring table centerpieces will be conducted by Mrs. S. G. Measamer. Members are requested to reserve their fresh flowers with the calling committee by Dec. 2.

4 Firemen, Chaplain Hurt During Blaze

COLUMBUS, Ohio (AP) — Four firemen and a chaplain were injured Monday night while fighting a fire that gutted a three-story near-downtown building containing a business and furniture warehouse.

Firemen battled the blaze for three hours before bringing it under control without spreading to several other nearby warehouses.

Cause of the fire had not

been determined and there was no estimate of damage.

The four firemen were hurt when power lines fell on them. Treated at University Hospital for electrical shock and released were Richard Shaeffer, 46, James Blizzard, 30, Harold Barnes, 38, and Gale Mahoney, 48.

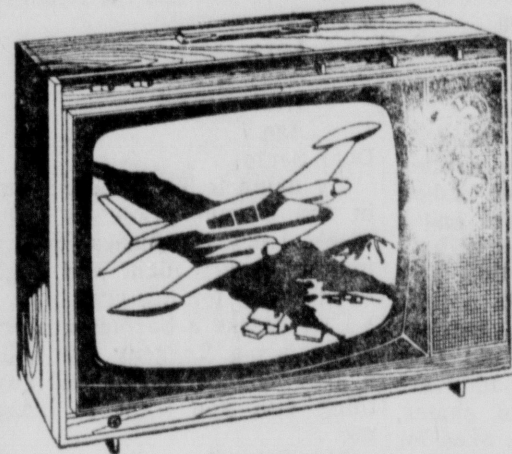

The chaplain, the Rev. Carlton Sutorius, was injured in a fall. He was released after treatment at Grant Hospital for a shoulder injury.

Some 150 firemen and 31 fire units were sent to the blaze, which lighted up the near north side sky and sent dense smoke drifting over the city. When firefighters arrived all three floors were ablaze and flames were coming out of the roof.

Because of numerous falling wires, the electric company shut off power in the area for nearly an hour.

The building, located near the corner of Swan and High streets on the northern edge of the downtown area, housed the Swan Street Flea Market on the ground floor and a furniture warehouse in the rear and upper floors.

Ice is being used experimentally to save fruit orchards in Springfield, Ore., from frost damage, National Geographic reports. Spraying hot waste water from a nearby pulp plant on the tree sheathes buds in "warm ice" that keeps them insulated at about 30 degrees Fahrenheit when the temperature drops much lower.

Policewoman Tells Women How To Foil Attackers

Views On TV - Radio

By JAY SHARBUTT
AP Television Writer

NEW YORK (AP) — Next March the communications subcommittee of the Senate Commerce Committee will inspect this year's broadcasting record as described by the Federal Communications Commission.

And the annual FCC report may well cover the delicate topic of who's been naughty or nice this year in network television—a bold year in which homosexuality, lesbianism, venereal disease and abortion finally took their places in the ranks of acceptable television story themes.

Sen. John Pastore, chairman of the Senate subcommittee, says he hasn't seen any indication yet that the networks are using sexually oriented story themes just to boost rating points.

"I can't spot it as yet," the

Rhode Island Democrat said last week in a telephone interview from his home state, where he was working and resting during the Senate's post-election break.

"But naturally, when I go back to Washington I'm going to have discussions with Dean Burch (FCC chairman) and the rest of the commission to find out their reaction to what's going on," he said.

What could develop when Pastore's subcommittee meets next year to begin hearings on the FCC's annual report?

"Only the arousing of public opinion," he said. "Frankly, there've been some things that have shocked me. There have been four-letter words used on radio. Of course, they haven't gone that far on television."

"They have used four-letter words on television, but they've (the networks) 'bleeped' them out. At least they've had the decency to do that. But, you know, someday they're not going to do that."

"The big question is how far we're going to go with this," Pastore said, referring to television's new permissiveness. "The only thing I can do is to keep it more or less in the area of public attention, to make the public know exactly what is going on."

He emphasized that Congress and the government can't by law "regulate programming. As a matter of law, we can't get into the area of censorship, and nobody cares to get into that."

However, he observed, television "is a highly competitive field and, as ideas become shopworn, they (producers) come into something that gets a little bolder and bolder."

"And then it's going to get more and more risqué. Now homosexuality and lesbianism, I suppose, is a realism of life and it's amongst us. And some people are very much offended by programs about these topics."

"But just how they (the networks) are going to handle it is a hard thing to say," Pastore mused. "I would hope that it doesn't get out of hand."

Are there limits to what can be shown on television? "Well, not legally," Pastore said. "The point is, it all comes down to a matter of restraint and judgment and prudence on the part of the broadcast licensee."

And he added later that there also is "the matter of public opinion as to what is going to happen to these (broadcasts) licenses who become a little too bold on some of these things."

What part can the public play at license-renewal time? "That's what I'm talking about," Pastore said. "The public will have to appear and object to some of these licenses who become a little too bold on some of these things."

Catfish Limit Lifted In Texas

AUSTIN (AP) — The Texas Parks and Wildlife Department says most catfish fans can leave their rulers at home from now on.

A regulation requiring catfish to be at least 11 inches long has been scratched except in the northeast regulatory district.

Daily bag limits and possession limits remain the same.

By TERESA C. PITTS
Associated Press Writer

COLUMBUS, Ohio (AP) — Three hundred women in America will be raped tonight. Policewoman Jeanne Bray says in most cases it will be the woman's fault.

Women take foolish chances. They don't take adequate precautions. They don't even report assaults to the police.

These things make women sitting ducks for most types of sexual crime, said Mrs. Bray, 12 years with the Columbus Police Department.

"With most women it's an attitude of 'it can't happen to me,'" she said. But more than 36,000 women in the United States last year found out differently.

The rape figure available from the F.B.I. doesn't include simple assault, purse snatching, exposure, obscene phone calls and peeping toms either, she points out.

Mrs. Bray knows her stuff. A deceptively feminine five-time national policewomen's combat champion, Patrolwoman Bray travels the nation speaking to both women and men's groups about personal safety.

Her crusade began when, as a freshman in the department, she became frustrated with the number and circumstances of assaults on women.

Avoiding an assault "is simply a matter of common sense," she says, giving the impression she'd like to stamp her foot for emphasis.

And emphasize the point she does. Five-foot, petite, blond ringlets in place, blue eyes unwary, who instructs her partner, Bill, to come up from behind and place his hands around her throat.

"Hand clenches . . . now swing, up, round . . . there!" she chants, breaking his hold and sending a sharp finger jab to his solar plexus. (That's the fourth button down on a man's shirt, she says).

Two fingers into the eyes or a fingernail under the nose will do the trick too," she says.

"And you don't have to be a bit strong to do it."

Although she doesn't recommend hand-to-hand combat if it can be avoided, she tells her audience to remember three areas just in case: groin, solar plexus, eyes.

"Even slight pressure on these areas can cause extreme pain, unconsciousness, or even death," she says. "But if your life is in danger, anything goes."

No guns, cans of mace, judo. Patrolwoman Bray recommends defense weapons more at home in a woman's hands, and less likely to backfire during a crisis. Metal teasing combs, hair spray, puncture-type can opener, metal nail file, pencil, umbrella or high heeled shoe.

But women's best defense she says are the old stand-bys. Screaming, kicking, biting, scratching.

In case of an attack, Mrs. Bray outlined the following procedure: If in a residential area or business area during working hours scream and run to the nearest doorway. If it is obvious there is no help in the area, give the appearance of calm. Running, screaming or struggling may result in maiming — even death. Try to bluff your way out of it. Cooperate with the assailant until he relaxes his guard and you can run away.

"Remember, there are worse things that can happen than being raped," she said. "But, if your life is in real danger at any moment, try anything, do anything."

But the secret of not being attacked is to avoid it in the first place.

"Most street attacks are the result of opportunity, and when women tempt opportunity, they invite trouble."

A woman alone is a target —

avoid it if at all possible.

But knowing that more women these days work, travel and live alone, she gives this advice:

When traveling — have your keys ready as you approach the car, glance in the back seat before getting in; once inside lock the doors. Keep the car locked at all times. Women who travel a good deal alone might consider removing makeup and wearing a man's cap to avoid pickups and being followed. Never drive into a dark garage. Park outside.

Car trouble — Don't go for help unless you can see your destination. If no help is available, raise the hood, tie a light or white handkerchief to the door handle, then wait in the car, doors locked. If someone stops to help, slip a note through a lowered window telling him the nature of the trouble and who to call. If he's sincere about helping, he'll telephone or fix the flat, or whatever, without you having to leave the car.

Shopping — carry shoulder bags with flaps towards you and hand on strap; handle purses should be carried with one arm through both handles held close to the front of the body; clutch bags can be carried like footballs, high under the arm. Don't leave car trunks open or unlocked.

Home — Keep all doors and windows locked, including screen and inner doors. Door locks should include a metal chain latch. At night, keep curtains closed. Avoid wearing

clothing that would attract "peeping toms." Don't open the door to strangers — even if they have the best of excuses. If you plan to come home after dark, leave a light burning.

Mrs. Bray advises the "silent

treatment" for obscene phone callers, and a sense of humor for male exposures.

"If you just die laughing it's terribly ego deflating, and he'll probably never bother you again," she says.

Report an assault immediately, she advises. Try to remember what the man looks like and make a detailed report to the patrol officer. A policewoman is available to take the report if requested, she said.

Calley Seeks Clemency

FT. BENNING, Ga. (AP) — A three-officer panel visited Lt. William L. Calley Jr. Monday to interview him and hear his appeal for clemency in his 20-year sentence for murdering 22 Vietnamese civilians at My Lai.

Calley, 29, has been under house arrest at his small, red brick apartment on this infantry post since April 1, 1971.

The three clemency and parole officers were accompanied to the apartment by Maj. John Wiley, confinement officer at Ft. Benning.

The hearing was closed to both Calley's lawyers and to newsmen.

George W. Latimer, Calley's lawyer, said in a telephone interview from his home in Salt Lake City that the officers would "interview him, ask him questions."

"He can state anything he wants," Latimer said. "I've advised him to be prepared to make the best showing he can. Surely he will make a plea."

Views On TV - Radio

By JAY SHARBUTT
AP Television Writer

NEW YORK (AP) — Next March the communications subcommittee of the Senate Commerce Committee will inspect this year's broadcasting record as described by the Federal Communications Commission.

And the annual FCC report may well cover the delicate topic of who's been naughty or nice this year in network television—a bold year in which homosexuality, lesbianism, venereal disease and abortion finally took their places in the ranks of acceptable television story themes.

Sen. John Pastore, chairman of the Senate subcommittee, says he hasn't seen any indication yet that the networks are using sexually oriented story themes just to boost rating points.

"I can't spot it as yet," the

Rhode Island Democrat said last week in a telephone interview from his home state, where he was working and resting during the Senate's post-election break.

"But naturally, when I go back to Washington I'm going to have discussions with Dean Burch (FCC chairman) and the rest of the commission to find out their reaction to what's going on," he said.

What could develop when Pastore's subcommittee meets next year to begin hearings on the FCC's annual report?

"Only the arousing of public opinion," he said. "Frankly, there've been some things that have shocked me. There have been four-letter words used on radio. Of course, they haven't gone that far on television."

"They have used four-letter words on television, but they've (the networks) 'bleeped' them out. At least they've had the decency to do that. But, you know, someday they're not going to do that."

"The big question is how far we're going to go with this," Pastore said, referring to television's new permissiveness. "The only thing I can do is to keep it more or less in the area of public attention, to make the public know exactly what is going on."

He emphasized that Congress and the government can't by law "regulate programming. As a matter of law, we can't get into the area of censorship, and nobody cares to get into that."

However, he observed, television "is a highly competitive field and, as ideas become shopworn, they (producers) come into something that gets a little bolder and bolder."

"And then it's going to get more and more resque. Now homosexuality and lesbianism, I suppose, is a realism of life and it's amongst us. And some people are very much offended by programs about these topics."

"But just how they (the networks) are going to handle it is a hard thing to say," Pastore mused. "I would hope that it doesn't get out of hand."

Are there limits to what can be shown on television? "Well not legally," Pastore said. "The point is, it all comes down to a matter of restraint and judgment and prudence on the part of the broadcast licensee."

And he added later that there also is "the matter of public opinion as to what is going to happen to these (broadcasts) licenses who become a little too renewal by the FCC."

What part can the public play at license-renewal time? "That's what I'm talking about," Pastore said. "The public will have to appear and object to some of these licensees who become a little too bold on some of these things."

Catfish Limit Lifted In Texas

AUSTIN (AP) — The Texas Parks and Wildlife Department says most catfish fans can leave their rulers at home from now on.

A regulation requiring catfish to be at least 11 inches long has been scratched except in the northeast regulatory district.

Daily bag limits and possession limits remain the same.

Among Indian tribes that originally made their homes in Colorado were the Arapaho, the Comanche, the Kiowa and the Ute.

Policewoman Tells Women How To Foil Attackers

By TERESA C. PITTS
Associated Press Writer

COLUMBUS, Ohio (AP) — Three hundred women in America will be raped tonight. Policewoman Jeanne Bray says in most cases it will be the woman's fault.

Women take foolish chances. They don't take adequate precautions. They don't even report assaults to the police.

These things make women sitting ducks for most types of sexual crime, said Mrs. Bray, 12 years with the Columbus Police Department.

"With most women it's an attitude of 'it can't happen to me,'" she said. But more than 36,000 women in the United States last year found out differently.

The rape figure available from the F.B.I. doesn't include simple assault, purse snatching, exposure, obscene phone calls and peeping toms either, she points out.

Mrs. Bray knows her stuff. A deceptively feminine five-time national policewomen's combat champion, Patrolwoman Bray travels the nation speaking to both women and men's groups about personal safety.

Her crusade began when, as a freshman in the department, she became frustrated with the number and circumstances of assaults on women.

Avoiding an assault "is simply a matter of common sense," she says, giving the impression she'd like to stamp her foot for emphasis.

And emphasize the point she does. Five-foot, petite, blond ringlets in place, blue eyes unwary, who instructs her partner, Bill, to come up from behind and place his hands around her throat.

"Hand clenches . . . now swing up, round . . . there!" she chants, breaking his hold and sending a sharp finger jab to his solar plexus. (That's the fourth button down on a man's shirt, she says).

Two fingers into the eyes or a fingernail under the nose will do the trick too," she says.

"And you don't have to be a bit strong to do it."

Although she doesn't recommend hand-to-hand combat if it can be avoided, she tells her audience to remember three areas just in case: groin, solar plexus, eyes.

"Even slight pressure on these areas can cause extreme pain, unconsciousness, or even death," she says. "But if your life is in danger, anything goes."

No guns, cans of mace, judo. Patrolwoman Bray recommends defense weapons more at home in a woman's hands, and less likely to backfire during a crisis. Metal teasing combs, hair spray, puncture-type can opener, metal nail file, pencil, umbrella or high heeled shoe.

But women's best defense she says are the old standbys. Screaming, kicking, biting, scratching.

In case of an attack, Mrs. Bray outlined the following procedure: If in a residential area or business area during working hours scream and run to the nearest doorway. If it is obvious there is no help in the area, give the appearance of calm. Running, screaming or struggling may result in maiming — even death. Try to bluff your way out of it. Cooperate with the assailant until he relaxes his guard and you can run away.

"Remember, there are worse things that can happen than being raped," she said. "But, if your life is in real danger at any moment, try anything, do anything."

But the secret of not being attacked is to avoid it in the first place.

"Most street attacks are the result of opportunity, and when women tempt opportunity, they invite trouble."

A woman alone is a target —

avoid it if at all possible.

But knowing that more women these days work, travel and live alone, she gives this advice:

When traveling — have your keys ready as you approach the car, glance in the back seat before getting in; once inside lock the doors. Keep the car locked at all times. Women who travel a good deal alone might consider removing makeup and wearing a man's cap to avoid pickups and being followed. Never drive into a dark garage. Park outside.

Car trouble — Don't go for help unless you can see your destination. If no help is available, raise the hood, tie a light or white handkerchief to the door handle, then wait in the car, doors locked. If someone stops to help, slip a note through a lowered window telling him the nature of the trouble and who to call. If he's sincere about helping, he'll telephone or fix the flat, or whatever, without you having to leave the car.

Shopping — carry shoulder bags with flaps towards you and hand on strap; handle purses should be carried with one arm through both handles held close to the front of the body; clutch bags can be carried like footballs, high under the arm. Don't leave car trunks open or unlocked.

Home — Keep all doors and windows locked, including screen and inner doors. Door locks should include a metal chain latch. At night, keep curtains closed. Avoid wearing

clothing that would attract "peeping toms." Don't open the door to strangers — even if they have the best of excuses. If you plan to come home after dark, leave a light burning.

Holiday Dances

An enterprising dance committee from the Williamsport Volunteer Fire Dept. has been the guiding force behind a number of 50-50 dances held at the Pavilion for several months now. Their Thanksgiving night dance was a tremendous success thanks to all those who attended. Scheduled for the upcoming holiday is a Christmas night dance Dec. 25 8 p.m. until 12 p.m. and on Saturday, Dec. 30 from 8 p.m. until 1 p.m. will be a pre-New Year's celebration type dance complete with hats and noisemakers included in the price of admission. Hoping to make the Pavilion a bit gayer for the holidays the committee would like to decorate but funds are quite limited so they are appealing to any one who might contribute to the cause. Any donation, large or small, will be gladly and gratefully accepted by Jim Cochenour, Jack Brayshaw and or Glen Whitten (the committee members). Why not send or give right away so they can make their plans? They hope to begin on the decorations no later than Dec. 15 and they do need to know what they will have to work with.

George and Florence McGhee's lovely country home was the setting for the family dinner on Thanksgiving Day with their guests being Carl and Mary Gearheart, Bob and Pat Metzger and daughters Crystal and Lori of our town, Dave and Bonnie Junk and Jeff, Mrs. Betty Frazier, and Mrs. Dorothy McGhee all of Washington C. H., Miss Marsha Frazier from Kent State, Nick and Sue Stonerock, Troy, Tracy, and Trent of Circleville. Mrs. Dorothy McGhee, a former Williamsport resident, will be leaving soon for her winter home in Fla.

Driving in from Martinsville, Virginia were Mr. and Mrs. Reed Anderson and Laura to be with his mother Mrs. Bea Anderson and other family members from Tuesday until

Sunday. On Thanksgiving Day they followed the tradition of being with Bea's mother, Mrs. John Fellenstein of Clarksburg. Also there were Mr. and Mrs. Virgil Anderson, Mark and Stephen of Circleville, Mr. and Mrs. Earl Hildenbrand and sons Chris and Casey of near Kingston, Norma Anderson of this town, Bill Gilmore of Five Points, Mr. and Mrs. Wayne Reynolds, Paul and Patricia of Kingsport, Tenn., Mr. and Mrs. John Wright and Clayton of Clarksburg, Mr. and Mrs. Joe (Linda Wright) Rogers of Columbus. Joe had just arrived home from his tour of Vietnam duty on Tuesday.

Virgil and Reed Anderson, devoted O.S.U. alumni were in the throng that cheered their team to glorious victory on Saturday afternoon. That evening the families gathered at Bea Anderson's home for supper. In attendance were Norma Anderson, Bill Gilmore of Five Points, Earl and Marcella Anderson Hildenbrand, Chris and Casey of Kingston, Virgil and Ruby and boys Mark and Stephen of Roundtown and the Reed Anderson's of Martinsville.

Jim and Betty Howell with LuAnn, Missy and Thad were turkey and all the trimming dinner guests of Mrs. Dorothy Phelps and joining the family circle were George and Alice Phelps, Kathy and Kay of Trenton, Michigan and Keith and Linda Phelps of Bay City, Mich. All the Michigan Phelps arrived Wednesday and remained until Sunday as the houseguests of Dorothy (Wardell Party Home). The Howells planned to entertain all of them on Saturday evening.

Maxine and Earl Lanman had as their Thanksgiving evening dinner guests their daughters and families, Jim and Karen Dean and lovable Michele, localites, Marvin and Susan Spradlin of near Mt. Sterling and Miss Barbara Jo.

Mrs. Jack (Juanita) Hanson and son Terry were hosts to her parents, Mr. and Mrs. Edward Spangler of Frankfort and her brother, Mr. and Mrs. Floyd Spangler and daughters of Chillicothe and daughter Christy Hanson, student at Nationwide Beauty Academy of Columbus for the noon meal. That evening Juanita and her "kids" were among the guests of Mr. and Mrs. Floyd Pabst of South Bloomfield.

For Walter and Elsie Wright it was most pleasant to have several family members join them for the holiday meal. Enjoying the good food and conversation were Warren and Norma Wright, Wayne and Susan, Paul and Helen Whitesed, Kay and Cora Joe and Nellie Wright, Gary and Judy, Bill and Norma Keller, Nancy, Marilyn and Bill all of this area, Mr. Billy Swaey of Cincinnati and Miss Peggy Neff of Pherson.

Harvey and Margene Looney and Jamey extended the cordial hospitality of their hearth to Joe and Dean McCafferty of

Columbus, Mike and Ruth McCafferty of Circleville.

Aunt Gladys Arledge and her hubby Jack drove up to Delaware to be with their son Harry his wife and their children Patti, Hank and Doug.

Bill and Scarlett Carter Veronica and Termitte were among the twenty-five family dinner guests of Mr. and Mrs. Dale Carter, Kim, Corky and Barry of Adelphi.

Marsha McCafferty and her three little Mc's, Kelly, Kim and Kathy spent the holiday from Tuesday until Saturday with he folks, Mr. and Mrs. George Wharton of Columbus. Daddy Mike was off for his annual trek to the wilds of Virginia in search of wild game. Much to his despair (and Marsha's delight) the cupboard will be bare this season. Of venison steaks, that is!

My neighbors, Harry and Kathy Hastings spent their first Thanksgiving as a hubby-wife duo with Bill and Maria Hastings for the noontime feast and in the evening were guests of her parents, Mr. and Mrs. Harry Davis of Circleville. Brother Walter Hastings shared the joys of the noon meal, too.

Thanksgiving evening callers of Herschel and Mae Litter were Eddie and Peggy Litter, Tammy, Tracy, Patty and Julie of Londonerry, Dale (Butch) and Mary Ann Russell, Tina, Rita and Pete of Clarksburg. Both families had been among the family gathering of Mrs. Kathie Russell earlier in the day. On Sunday all those mentioned plus other Daily family members gathered at the home of Mr. and Mrs. Edwin Daily of Chillicothe to celebrate father Daily's eighty-third birthday. The Dailys are Mae's parents.

Mr. Harry Keller thoroughly enjoyed Thanksgiving repast with his daughter and her family, Juanita and A. J. Cook and Shana Wills. Juanita's daughter, Sally Whitt of Amherst is recuperating from a recent hospitalization and will return to the hospital in the near future.

Ronnie and Judy Dupler of Columbus were the weekend guests of Ron and Marilyn Bush, sons Mike and Tim of the two arm casts.

Mr. Blaine Ater, former town marshal and long time resident, is quite ill and a patient in Chillicothe Hospital. Cards would surely do much to brighten his days.

In such a short span of time the lives of us villagers have been shocked, saddened and grief stricken by the unexpected death of so many of our dear friends. Final farewells to Mrs. Maude Rihl, Mrs. Esther Bartholomew, Mrs. Florence West and Mr. Woody Smith. They each will be much missed but long remembered.

Think About: Life is eternal, and love is immortal, and death is only a horizon, and a horizon is nothing save the limit of our sight (said by Rossiter Worthington Raymond).

FFA Chapter

Plans Pest Hunt

Plans for the pest hunt were completed when the Amanda-Clearcreek FFA met Nov. 20 under the direction of president Tony McRay.

The hunt started Nov. 21 and will last through Jan. 2. In other business, the chapter discussed purchasing more recreational supplies and sponsoring a skating party next spring.

The chapter also discussed buying the officers ties that are all alike.

Two guests, Herb Vanfausen and Joe Searles of the Fairfield Union Chapter, showed slides of their local chapter campout. Refreshments were served at the end of the meeting.

Romney Quits Cabinet Post; Await Naming Of Successor

WASHINGTON, (AP) — Secretary George Romney announced today he will leave the Department of Housing and Urban Development as soon as his successor is confirmed by Congress.

Romney said he plans to create a coalition of concerned citizens which will define what he called life-and-death issues.

Romney released, at a news conference, his letter of resignation to President Nixon and the White House response in accepting it.

In a "Dear George" letter, Nixon said Romney's resignation is a "source of special regret to me, even though we have discussed your desire to

leave the Cabinet for several months."

Nixon said that Romney had "contributed enormously not only of your time and energies, but also of that profound concern for the public good that has been the mark of your life and your career."

At the news conference, Romney gave scant detail of his future, saying that he would hold more meetings with the press as HUD secretary and would announce the details of the proposed citizens organization when he had resolved them in his own mind.

Romney, 56, a former Michigan governor, came to prominence in the business world as head of American Motors.

He said in his statement there is a growing need for adequate citizen participation in the national decision process.

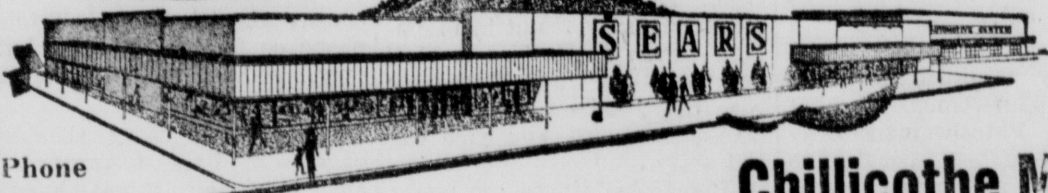

During the past nine months, Romney has expressed in speeches his desire to lead a concerned citizens organization, giving rise to speculation that it would be a Republican "Com-

mon Cause," comparable to the citizens lobby headed by John Gardner.

That evening Juanita and her "kids" were among the guests of Mr. and Mrs. Floyd Pabst of South Bloomfield.

For Walter and Elsie Wright it was most pleasant to have several family members join them for the holiday meal. Enjoying the good food and conversation were Warren and Norma Wright, Wayne and Susan, Paul and Helen Whitesed, Kay and Cora Joe and Nellie Wright, Gary and Judy, Bill and Norma Keller, Nancy, Marilyn and Bill all of this area, Mr. Billy Swaey of Cincinnati and Miss Peggy Neff of Pherson.

Harvey and Margene Looney and Jamey extended the cordial hospitality of their hearth to Joe and Dean McCafferty of

Columbus, Mike and Ruth McCafferty of Circleville.

Aunt Gladys Arledge and her hubby Jack drove up to Delaware to be with their son Harry his wife and their children Patti, Hank and Doug.

Bill and Scarlett Carter Veronica and Termit were among the twenty-five family dinner guests of Mr. and Mrs. Dale Carter, Kim, Corky and Barry of Adelphi.

Marsha McCafferty and her three little Me's, Kelly, Kim and Kathy spent the holiday from Tuesday until Saturday with he folks, Mr. and Mrs. George Wharton of Columbus. Daddy Mike was off for his annual trek to the wilds of Virginia in search of wild game. Much to his despair (and Marsha's delight) the cupboard will be bare this season. Of venison steaks, that is!

My neighbors, Harry and Kathy Hastings spent their first Thanksgiving as a hubby-wife duo with Bill and Maria Hastings for the noon meal feast and in the evening were guests of her parents, Mr. and Mrs. Harry Davis of Circleville. Brother Walter Hastings shared the joys of the noon meal, too.

Thanksgiving evening callers of Herschel and Mae Litter were Eddie and Peggy Litter, Tammy, Tracy, Patty and Julie of Londonerry, Dale (Butch) and Mary Ann Russell, Tina, Rita and Pete of Clarksburg. Both families had been among the family gathering of Mrs. Kathie Russell earlier in the day. On Sunday all those mentioned plus other Daily family members gathered at the home of Mr. and Mrs. Edwin Daily of Chillicothe to celebrate father Daily's eighty-third birthday. The Dailys are Mae's parents.

Mr. Harry Keller thoroughly enjoyed Thanksgiving repast with his daughter and her family, Juanita and A. J. Cook and Shana Wills. Juanita's daughter, Sally Whitt of Amherst is recuperating from a recent hospitalization and will return to the hospital in the near future.

Ronnie and Judy Dupler of Columbus were the weekend guests of Ron and Marilyn Bush, sons Mike and Tim of the two arm casts.

Mr. Blaine Ater, former town marshal and long time resident, is quite ill and a patient in Chillicothe Hospital. Cards would surely do much to brighten his days.

In such a short span of time the lives of us villagers have been shocked, saddened and grief stricken by the unexpected death of so many of our dear friends. Final farewells to Mrs. Maude Rihl, Mrs. Esther Bartholomew, Mrs. Florence West and Mr. Woody Smith. They each will be much missed but long remembered.

Think About: Life is eternal, and love is immortal, and death is only a horizon, and a horizon is nothing save the limit of our sight (said by Rossiter Worthington Raymond).

FFA Chapter Plans Pest Hunt

Plans for the pest hunt were completed when the Amanda Clearcreek FFA met Nov. 20 under the direction of president Tony McRay.

The hunt started Nov. 21 and will last through Jan. 2. In other business, the chapter discussed purchasing more recreational supplies and sponsoring a skating party next spring. The chapter also discussed buying the officers ties that are all alike.

Two guests, Herb Vanfausen and Joe Searles of the Fairfield Union Chapter, showed slides of their local chapter campout. Refreshments were served at the end of the meeting.

Romney Quits Cabinet Post; Await Naming Of Successor

WASHINGTON, (AP) — Secretary George Romney announced today he will leave the Department of Housing and Urban Development as soon as his successor is confirmed by Congress.

Romney said he plans to create a coalition of concerned citizens which will define what he called life-and-death issues.

Romney released, at a news conference, his letter of resignation to President Nixon and the White House response in accepting it.

In a "Dear George" letter, Nixon said Romney's resignation is a "source of special regret to me, even though we have discussed your desire to

leave the Cabinet for several months."

Nixon said that Romney had "contributed enormously not only of your time and energies, but also of that profound concern for the public good that has been the mark of your life and your career."

At the news conference, Romney gave scant detail of his future, saying that he would hold more meetings with the press as HUD secretary and would announce the details of the proposed citizens organization when he had resolved them in his own mind.

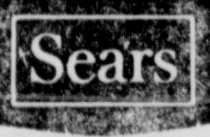

Romney, 56, a former Michigan governor, came to prominence in the business world as head of American Motors.

He said in his statement there is a growing need for adequate citizen participation in the national decision process.

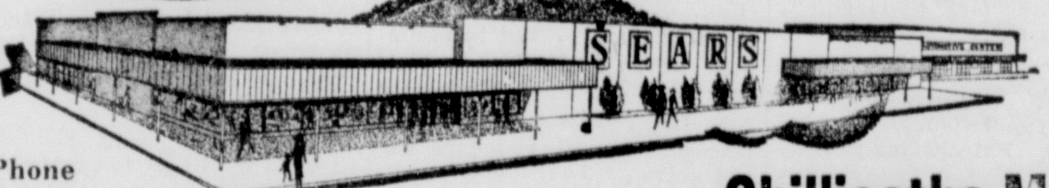

During the past nine months, Romney has expressed in speeches his desire to lead a concerned citizens organization, giving rise to speculation that it would be a Republican "Com-

mon Cause," comparable to the citizens lobby headed by John Gardner.

Roger Bowers Is Officer Of NEWMA

Governor John J. Gilligan announced this morning that Roger E. Bowers chief of the Division of Weights and Measures within the Ohio Department of Agriculture, was appointed vice chairman of the North East Weights and Measures Association at its November 14 and 15 meeting in Syracuse, New York.

Director of Agriculture Gene R. Abercrombie said that Bowers is highly qualified for such a position, and that the NEWMA will be working in the coming months to coordinate weights and measures activities within its member states.

Abercrombie also pointed out that NEWMA states represent over 40 per cent of the total US population, making it one of the largest consumer protection oriented associations in the U.S.

"We feel very fortunate to have a man with Bowers' qualifications working for the ODA," he said. "Ohio will be represented very well."

Ohio Crop Disaster Aid Requested

COLUMBUS, Ohio (AP)—Saying Ohio farmers face financial ruin because of bad weather, Agriculture Director Gene Abercrombie asked the federal government Monday to declare the entire state a disaster area because of inundated crops.

He told U.S. Secretary of Agriculture Earl Butz in a letter that the designation is needed quickly so that Ohio farmers may be eligible for emergency relief and emergency loan funds through the Farmers Home Administration.

Because of heavy rains, Abercrombie said, no more than 40 per cent of the corn and soybean crops have been harvested and water is standing in "all of the fields in the state."

He said some farmers face contractual obligations for delivery of soybeans by Dec. 1 and now cannot possibly deliver.

The Agriculture Department earlier this month gave disaster classification to 10 Ohio counties hit hardest by the bad weather.

Gov. John Gilligan, commenting on the latest request, said Abercrombie would "coordinate every possible effort to see that all farmers whose crops have suffered from the heavy rains will be eligible for the relief they so deserve."

Newsman Jailed Again

LOS ANGELES (AP) — A newsman who refused to tell a judge the source of a news story is back in jail for the second time in two weeks.

Before William Farr was led away Monday after a hearing, Superior Court Judge Charles Older said, "It appears to the court at this time that Mr. Farr has a strong desire to become a martyr and that he wants to go to jail."

The 37-year-old reporter said "It is a problem of personal conscience and professional ethics, not for the purpose of martyrdom. I'm the one who knows, and you do not."

Farr faces an indefinite sentence for contempt of court.

The case hinges on a story by Farr that appeared in the Los Angeles Herald-Examiner on Oct. 9 1970, during the Charles Manson murder trial. Farr wrote about Manson clan plans to kill Hollywood celebrities.

Farr was jailed briefly last week after refusing to obey Older's order to disclose the source of the story.

How The Weather Looks

OHIO WEATHER SUMMARY
COLUMBUS, Ohio (AP)—Following is the Ohio weather summary from the National Weather Service:

From one to three inches of snow were expected to accumulate over southern Ohio before tapering off to flurries this evening.

The snow began falling in southwestern Ohio shortly after midnight and by dawn had spread over most of the southern portion of the state.

High temperatures today were forecast in the low to mid 30s, lows tonight in the 20s and highs on Wednesday in the upper 20s to low 30s.

Yesterday's highs seem warm in comparison when they ranged from 37 at Youngstown to 47 in the Cincinnati area. Light amounts of precipitation were reported by all Ohio stations Monday but were mostly traces.

A weak low pressure area centered in Tennessee which is responsible for the snow will be moving rapidly northeastward toward the coast by tonight. Colder air will follow in its wake.

FORECASTS
OHIO Cloudy with a chance of snow flurries tonight and Wednesday. Lows tonight in the low to mid 20s. Highs Wednesday in the upper 20s and low 30s.

LAKE SHORE, NORTHEAST INLAND, WEST CENTRAL—Cloudy and cold with a chance of snow flurries tonight.

WEST CENTRAL — Cloudy and cold with a chance of snow flurries tonight and Wednesday. Lows tonight in the low to mid 20s. Highs Wednesday in the upper 20s and low 30s.

SALT CREEK VALLEY GRANGE
Saltcreek Valley Grange met Tuesday at Saltcreek School with 17 members and 11 guests present.

Hoyt Timmons conducted the business meeting in the absence of Worthy Master Frances Fraunfelder. Carl and Ilene Dean were reinstated as members.

A thank you card was read from Don Maxson for the planter received while he was in the hospital.

Donna Beougher, chairman of women's activities, reported the theme for the National Grange program is "happiness." She also reported she had ordered pecans.

Barbara McKenzie, youth chairman, reported the youth conference will be held Dec. 30 and 31. Among the guests present were Maud Cristy, master of Amanda-Clearcreek Valley Grange, Richard Hodge, Pomona master of Clark County, and Joan Dawson, junior deputy of the Ohio State Grange.

Joyce Kerns of Amanda reported on her trip to National Grange in Hartford, Conn. The theme of the program presented by Paul Dunkle lecturer, was "Let's go camping." A contest was won by Joyce Kerns. Richard Hodge showed a movie on the progress of the state grange camp at Zanesville.

The Dec. 6 meeting will be a carry-in supper and Christmas party starting at 6:30 p.m. A dollar gift exchange will be held. Everyone present is to compose an 8-line poem about some Christmas in the past.

Refreshments of salad and sandwiches concluded the evening.

**FTC Sets
Endorsement
Regulations**

WASHINGTON (AP) — The Federal Trade Commission wants to tighten up its guidelines on endorsements in advertisements to leave less room for deception.

The FTC Monday asked for comment on proposed guidelines to prompt disclosure of facts which have a bearing on the impact of the endorsement, but which the public could not be expected to know.

Endorsers presented as experts should be qualified in the pertinent field, the FTC says. An "engineer" endorsing an automobile should be an automotive expert, not a chemist.

Any connection between advertiser and endorser should be spelled out, the agency said. And when an endorser says he uses a product because it's superior, that should be the reason, rather than that money has changed hands.

The agency also said an endorser represented as a typical user must be that. For instance, an appliance ad would not be able to use the experience of someone who used the product for eight years if its average life is three years.

A decision on implementation of the guidelines will be made after a four-month period in which comment will be received.

Americans Deny Death, Author Says

LEWISTON, Maine (AP) — Americans deny the inevitability of death and consider it to be similar to going to sleep in a comfortable bed, a sociologist says.

It is something to be ignored, sent packing off to a nursing home to slip away and die off-stage, says Richard C. Dumont of Bates College, who recently coauthored a book, "The American View of Death: Acceptance or Denial."

"The American apparently does not die," he said.

Madison Avenue image makers and businessmen seeking profit have combined to project the American corpse as alive as possible, and going to sleep in a casket which is often explicitly advertised as a comfortable bed.

Dumont said he still personally denies death "at the gut level. Although I am more conscious now of the ambivalence surrounding death, it's no more comprehensible than it ever was."

He added that he personally hasn't "solved any better the notion that I'll die."

"It's good for the individual to know that ambivalent or confusing feelings about death are natural," Dumont said. "It's helpful in view of individual adaptation."

Assembly Meet, Bowl Game Vie

COLUMBUS, Ohio (AP) — House Speaker-designate A. G. Lancione says there is "no way" the scheduled opening session of the 110th General Assembly New Years Day could be postponed because of the USC-Ohio State Rose Bowl game.

But Lancione said he would try to get lawmakers out of session in time for them to see the contest on television.

The House session of the new legislature will begin at 1 p.m. and the Senate at 1:30 p.m. The football game in Pasadena, Calif., begins at 4 p.m.

Five Answer DWI Charges

Five people appeared before Municipal Court Judge Sterling Lamb Monday to answer charges of driving while intoxicated filed during the weekend.

They were David Jarvis, 21, Route 2, Laurelville; Kenneth Quince, 43, Route 1, Circleville; Carl Tobin, 55, Derby; Eugene Seagraves, 47, Mt. Sterling; and Handrick Bruns, 41, 539 S. Scioto St.

All received the standard \$150 and costs fine except Tobin, who was fined \$250 and costs. All were sentenced to 30 days in Pickaway County Jail except Quince, who will be detained for 90 days. All lost their driving privileges for 6 months except Tobin, who will be unable to drive for a year.

In addition, Quince was fined \$50 and costs for driving left of center.

In court cases, Howard Haddock, 54, Route 2, Kingston, was fined \$25 and costs with \$10 suspended for driving left of center.

Harold Herron, 64, Route 4, Circleville, was fined \$25 and costs with \$10 suspended for failing to yield the right of way.

Laurel Handley, 22, Kingston, was fined \$10 and costs for driving with an expired operator's license.

Lawrence Smith, 37, Route 1, Stoutsville, was fined \$15 and costs for driving without regard to safety.

Sue Kaiser, 18, Route 3, was fined \$15 and costs for speeding 50 miles per hour in a 35 zone. Carol Teets, 20, Route 1, Ashville, forfeited \$19 bond for speeding 70 miles per hour in a 60 zone.

William McElroy, 28, Route 2, Ashville, forfeited \$29 bond for speeding 70 miles per hour in a 50 zone.

Paul Huffman, 24, William-sport, forfeited \$19 bond for speeding 70 miles per hour in a 60 zone.

Robert Keaton, 32, 208 W. High St., forfeited \$24 bond for having one license plate and \$34 bond for having fictitious plates.

Homer Logan Sr., 59, Route 1, Ashville, forfeited \$24 bond for failing to yield the right of way.

Youngsters on Point Roberts frequently have dual citizenship. Although part of the state of Washington, Point Roberts is cut off from the mainland by water, and its women usually give birth to their babies at a hospital in Vancouver. When the children reach 21 they can choose to be citizens of either the United States or Canada.

Travelers Face Red Tape Battle

By WERNER VOLLMAHN
Associated Press Writer

VIENNA (AP) — Travel for a Westerner may be occasionally troublesome, but this is nothing compared to the battle with red tape an East European traveler encounters, if he just goes from one Communist country to another.

The Slovak Association of Journalists recently issued what it called "a recipe for avoiding difficulties with passport and customs control" which lists so many things to do that it might in fact discourage anybody from making the trip in the first place.

The Association's biweekly publication Vyber Z Domacej A Zahranicnej Tlase listed the regulations applying in the various East European countries, which in the case of the Soviet Union alone covered 21 lines.

The hard-core measures are nearly the same in every East European country: Each wants to know who crosses the border, watches that not too much of its national currency is taken out, nor rare consumer goods which the East European countries prefer to sell in the West for hard currency.

Red tape starts at home. Czechoslovaks have to file customs and foreign currency declarations; in some cases they must also have exit permits. Anyone intending to take a gift exceeding \$20 along must obtain permission.

Anyone wanting to visit the Soviet Union or Poland must have a visa. Joining a tour of a state travel agency makes this relatively simple. But anyone who wants to visit privately must have an invitation authenticated by the Soviet militia.

The situation becomes even more complicated as far as money is concerned. Limits are set by each country how many zlotys, lei, leva, rubles, forints or East marks can be exchanged daily.

Returning travelers again have to watch out that they do not conflict with foreign currency regulations.

Bulgarians allow only 50 leva taken out of the country. Hungarians are willing to part with 200 forints but the bank notes must not be larger than 20-forint notes. Poles have a Democratic Republic (East

Germans set 250 East marks as the limit, Romania 500 lei and the Soviet Union 60 rubles.

While Bulgarians, Hungarians, Romanians and the Soviets seem unconcerned about the reading habits of their visitors, the East Germans and Poles ban any printed material from "non-Socialist" countries "if it endangers peace and Socialism or consists of maps discriminatory to the German Democratic Republic (East Germany) and other Socialist States."

Poles, East Germans and the Soviets have long lists of what travelers may carry along in their luggage.

Bottles bearing the name of a foreign product can not be brought into Poland, the Soviets say "net" to three overcoats, and the East German authorities do not like records made in West Germany or West Berlin. Records made in the West can only be taken along if "they represent a cultural heritage or progressive contemporary ideas."

Hungary, Bulgaria and Romania seem to have no special restrictions there. They, as the other three, limit goods the traveler might want to take out of the country, however.

Bulgaria, for instance, bans music instruments from being exported.

Poland requires a special permit for exports of china, glassware and fur coats, the Soviets block export of reindeer antlers and sable fur coats, and Hungary insists a tourist must not take out more than one half kilo of salami sausage.

Mystery Submarine Gone From Fjord?

OSLO (AP) — The Defense Command says the mystery object trapped in the Sognefjord for the last two weeks — presumably a foreign submarine — is believed to have left Norwegian territorial waters and the search for it will be reduced gradually.

A communique said visual and technical observations gathered since the search began indicated a foreign submarine was in the fjord but its nationality was not established.

Pipeline Ruptures, Catches Fire

WESTON, W. Va. (AP) — Work crews of Consolidated Gas Supply Corp. were to begin investigation today of a ruptured 20-inch natural gas distribution line which broke in an isolated section of north-central West Virginia and sent flames streaming 100 feet into the sky.

Jack Powers, public relations officer for the firm, said "we don't have any idea" what caused the break and subsequent fire the reflection of which was seen 80 miles away in Marietta, Ohio, but speculated that "it may have been a land slip. Usually that's one of the main causes."

There weren't any houses near the break Powers said, and no injuries were reported.

Powers fixed the location of the ruptured line as "near Churchville about 14 miles from Weston" near the Lewis County-Gilmer County line.

Workmen received a report of the break about 9:45 p.m. and rushed to close main valves near here and near Glenville in Gilmer County. The line was sealed off at 10:12 p.m., Powers said.

He discounted any form of sabotage, saying "we just don't have any reason to suspect it at this time."

Urge More Data On 'The Pill'

CINCINNATI, Ohio (AP) — The widely-used birth control pills are potentially free of blood-clotting hazards, but doctors prescribing them need much more information from government and other medical sources to assure such safety, a Louisiana State University Medical Center physician says.

Specifically, said Dr. Richard Dickey, there are so many different varieties of such pills on the market—14 at present—and each with different pharmacological properties, that doctors need guidance on the proper type of types needed to safely suit a particular woman's needs.

Indeed, he said, while such pills have become one of the most frequently-prescribed class of drugs, "the American physician probably knows less about the pharmacological basis for their differences in clinical potency and in the incidence of major and minor side-effects than about any other class of drugs."

Military Review Board Hears Calley Clemency Bid

FT. BENNING, Ga. (AP) — Lt. William L. Calley Jr., who has spent much of the last 19 months in the home that is his prison, playing with pets and putting in the garden, has made a plea for clemency.

Calley, convicted in March 1971 of the murders of 22 Vietnamese civilians at My Lai, answered questions Monday from the three-man Army Clemency and Parole Board, which flew here from Ft. Leavenworth, Kan.

The officers walked quickly

from the red brick apartment after their private session with Calley, which lasted nearly two hours. Waiting military cars whisked them away before newsmen could question them.

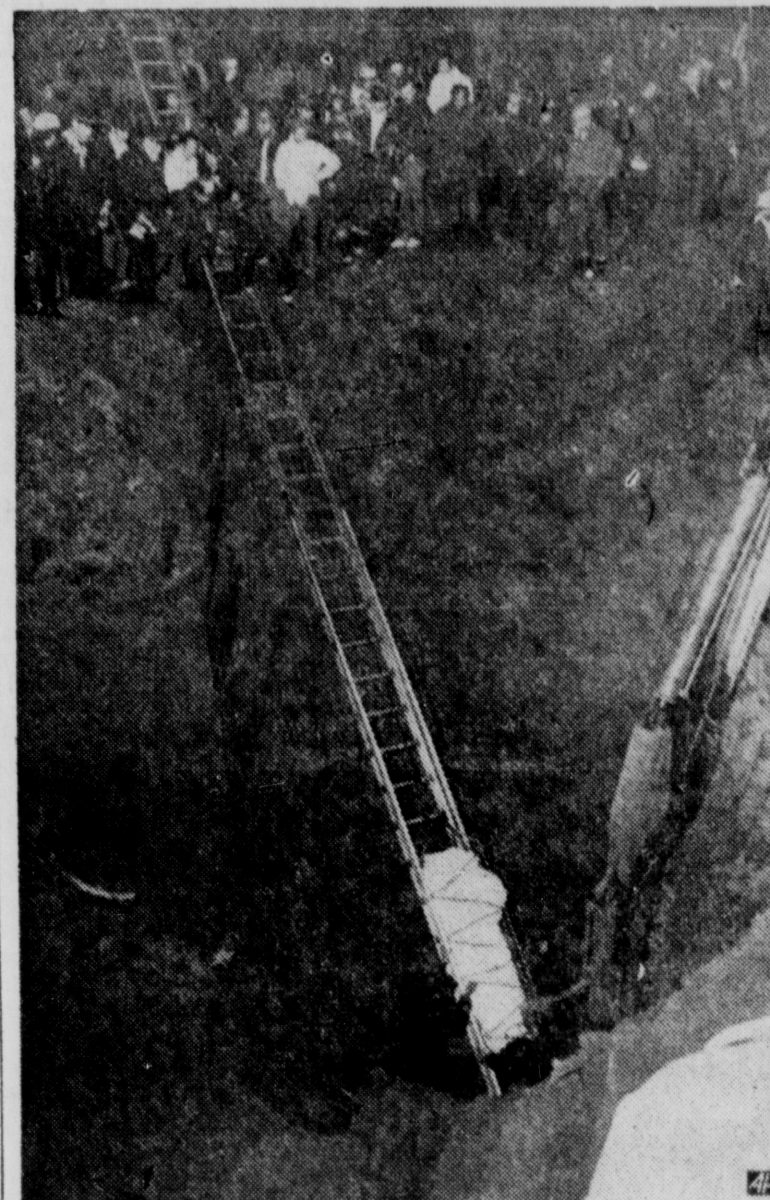

The clemency officers were Lt. Col. Harvey C. Johnson, Capt. James E. Brawner and Capt. Ray V. Smith.

The clemency board's report when completed will be sent to the commander at Ft. Benning and then will go directly to the Army's provost marshal general.

In a separate proceeding, the U.S. Court of Military Review will convene at Falls Church, Va., on Monday to hear a brief contending that Calley's court-martial contained at least 32 errors of fact. It is part of the automatic appeal of his sentence.

Calley, a 29-year-old platoon leader, was sentenced to life

imprisonment, but that term was later reduced to 30 years. After the nationwide reaction to Calley's conviction and sentence, President Nixon ordered him removed from the stockade at Ft. Benning and returned to his apartment, where he is guarded continuously by a military policeman.

Travelers Face Red Tape Battle

By WERNER VOLLMANN
Associated Press Writer

VIENNA (AP) — Travel for a Westerner may be occasionally troublesome, but this is nothing compared to the battle with red tape an East European traveler encounters, if he just goes from one Communist country to another.

The Slovak Association of Journalists recently issued what it called "a recipe for avoiding difficulties with passport and customs control" which lists so many things to do that it might in fact discourage anybody from making the trip in the first place.

The Association's biweekly publication Vyber Z Domacej A Zahranicnej Tlase listed the regulations applying in the various East European countries, which in the case of the Soviet Union alone covered 21 lines.

The hard-core measures are nearly the same in every East European country: Each wants to know who crosses the border, watches that not too much of its national currency is taken out, nor rare consumer goods which the East European countries prefer to sell in the West for hard currency.

Red tape starts at home. Czechoslovaks have to file customs and foreign currency declarations; in some cases they must also have exit permits. Anyone intending to take a gift exceeding \$20 along must obtain permission.

Anyone wanting to visit the Soviet Union or Poland must have a visa. Joining a tour of a state travel agency makes this relatively simple. But anyone who wants to visit privately must have an invitation authenticated by the Soviet militia.

The situation becomes even more complicated as far as money is concerned. Limits are set by each country how many zlotys, lei, leva, ruble, forints or East marks can be exchanged daily.

Returning travelers again have to watch out that they do not conflict with foreign currency regulations.

Bulgarians allow only 50 leva taken out of the country. Hungarians are willing to part with 200 forints but the bank notes must not be larger than 20-forint notes. Poles have a Democratic Republic (East

Germans set 250 East marks as the limit, Romania 500 lei and the Soviet Union 60 rubles.

While Bulgarians, Hungarians, Romanians and the Soviets seem unconcerned about the reading habits of their visitors, the East Germans and Poles ban any printed material from "non-Socialist" countries "if it endangers peace and Socialism or consists of maps discriminatory to the German Democratic Republic (East Germany) and other Socialist States."

Poles, East Germans and the Soviets have long lists of what travelers may carry along in their luggage.

Bottles bearing the name of a foreign product can not be brought into Poland, the Soviets say "njet" to three overcoats, and the East German authorities do not like records made in West Germany or West Berlin. Records made in the West can only be taken along if "they represent a cultural heritage or progressive contemporary ideas."

Hungary, Bulgaria and Romania seem to have no special restrictions there. They, as the other three, limit goods the traveler might want to take out of the country, however.

Bulgaria, for instance, bans music instruments from being exported.

Poland requires a special permit for exports of china, glassware and fur coats, the Soviets block export of reindeer antlers and sable fur coats, and Hungary insists a tourist must not take out more than one half kilo of salami sausage.

Southern Cal Still No. 1 In Grid Poll

By THE ASSOCIATED PRESS
It was Southern California and Alabama again No. 1 and No. 2 in the next-to-last Associated Press college football poll of the regular season.

The Trojans and the Crimson Tide, each unbeaten and untied in 10 games, were idle last week. The Trojans got 46 of 50 first place votes and 990 of a possible 1,000 points from a nationwide panel of sportswriters and broadcasters Monday in this week's poll.

Alabama received the remaining four first place votes and a grand total of 890 points.

Oklahoma's 17-14 victory over Nebraska moved the Sooners to third place and Ohio State's 14-11 surprise conquest of Michigan jumped the Buckeyes into fourth from ninth place.

Rounding out the Top Ten, in order, were Penn State, Texas, Michigan, Nebraska, Auburn and Notre Dame.

The Top Twenty, with first place votes in parentheses, season records and total points. Points tabulated on basis of 20-18-16-14-12-10-9-8-7-6-5-4-3-2-1.

1. USC (46)	10-0	990
2. Alabama (4)	10-0	890
3. Oklahoma	9-1	790
4. Ohio State	9-1	597
5. Penn State	10-1	583
6. Texas	9-1	494
7. Michigan	10-1	387
8. Nebraska	8-2-1	419
9. Auburn	8-1	323
10. Notre Dame	8-1	306

Others receiving votes, listed alphabetically: Georgia Tech, Iowa State, Missouri, North Carolina State, Purdue, San Diego State, Tampa, Texas Tech, Tulane, Washington.

A-C Boosters Hold Banquet

The Amanda Clearcreek Athletic Booster Club held its football banquet recently at the high school.

Ralph Starkey, Fairfield School for Boys, served as toastmaster for the event.

The Aces varsity, junior high squad and cheerleaders were honored at the affair.

Varsity football awards went to: Jeff Palmer, offensive lineman; Rex Riddle, defensive back and most improved player; Bob Foster, defensive lineman, offensive back and most valuable player.

Mid-State trophies went to Bob Foster, Joe Chattos and Ken Hinton who was an honorary member.

The "Steve Miller" award, given by Mr. and Mrs. Maynard Miller in memory of their son, was presented to Robert Foster. The 1972-73 Athletic Booster Club officers are: Robert Harrison, president; Mrs. Leroy Boyd, secretary; Mrs. Paul D. Kraft, treasurer.

The club meets the third Tuesday of each month and anyone is invited to attend.

Hayes Gives Team This Week Off

COLUMBUS, Ohio (AP)—Woody Hayes is giving his Rose Bowl-bound Ohio State football team this week off after its 14-11 victory Saturday over Michigan.

Hayes plans to resume practice next week for the Jan. 1 assignment against top-ranked Southern California.

Meanwhile, Ohio State will toast the Buckeyes with its annual football appreciation banquet tonight in the Ohio Union.

18 Players Change Teams At Baseball Meet

By KEN RAPPOPORT
Associated Press Sports Writer
HONOLULU (AP) — The New York Yankees made a big hit and the New York Mets completed a double play in the trading game at baseball's winter meetings.

Before the last man was out Monday, 18 players including such big names as Tommie Agee and Graig Nettles had changed teams as the free-swinging officials got the 71st annual session off to a rip-roaring start.

Even before the Major League draft led off official business Monday, the Yankees dropped an early-morning bombshell announcement involving Nettles and five others.

The Yanks, badly in need of a slugger, snatched the power-hitting Nettles from the Cleveland Indians along with catcher Jerry Moses for a covey of young hopefuls—catcher first baseman John Ellis, outfielders Charlie Spikes and Rusty Torres and infielder Jerry Kenney.

"We traded tomorrow for today," New York General Manager Lee MacPhail said. "The fans have waited long enough for a pennant. We want to win it next year—Yankee Stadium's 50th anniversary."

Taking a cue from their cross-town neighbor, the Mets pulled off a double-barreled swap Monday with the Houston

Astros and the Indians. The National Leaguers shipped center fielder Agee to the Astros for outfielder Rich Chiles and pitcher Buddy Harris. The Mets then completed their day's business with the announcement that relief pitcher Phil Hennigan had been obtained from the Indians for minor league pitchers Brent Strom and Bob Rauch.

The Pittsburgh Pirates and Detroit Tigers got into the act with a four-player deal only a few hours later. The Pirates obtained two minor league pitchers, left-hander Jim Foor and right-hander Norm McRae, for outfielder Dick Sharon and an undisclosed minor leaguer.

The trade-happy baseball people weren't finished, however. The Cincinnati Reds then dealt outfielder Bill Voss to the St. Louis Cardinals for pitcher Pat Jacquez.

There was other business Monday, although anyone hardly noticed. The hierarchy of the major and minor leagues held several administrative huddles, including the draft of players from baseball's massive farm system.

The major league draft, as usual, didn't produce much. Only six players were picked in a breezy, half-hour session, including the Philadelphia Phillies' No. 1 selection of pitcher Mike Bruhert from the Mets' Tidewater club in the International League.

The Los Angeles Dodgers also made news during the hectic day with the announcement that Tom Lasorda and Marty Bassgal had been added to their coaching staff. They replace Danny Ozark, now the manager of the Philadelphia Phillies, and Roy Hartsfield, who left the Dodgers for a coaching job with the Atlanta Braves.

Woolever Joins USM Cage Squad

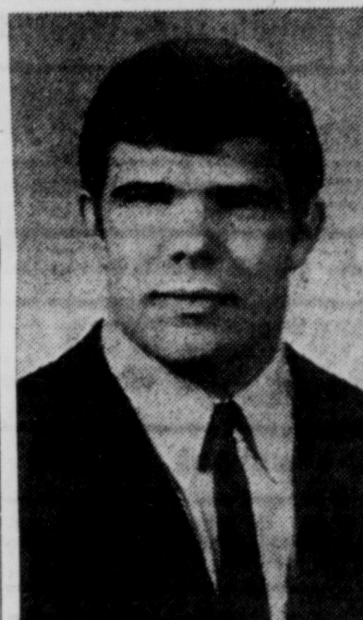

Royce Woolever, former star cager at Logan Elm High School and Ohio University Chillicothe Branch, is a member of the varsity basketball team at the University of Southern Mississippi.

The 6-foot-10 cager is being counted on to be a key factor in the Southerners success this season.

Former Zane Trace star athlete, Dave Hammond, is a member of the freshmen cage squad and has been the Southerners top scorer in recent scrimmage games.

Right fielder Cesar Geronimo of the Cincinnati Reds batted .220 in 94 games with Houston in 1971. This year, Cesar hit .275 in 120 games for the Reds.

Southpaw Ross Grimsley of the Cincinnati Reds is only 21. He had a 14-8 record this year, his first full season in the majors.

NEW POSITION—R. Barry Hennis, son of Mr. and Mrs. Jack Hennis, Gahanna, former residents of Circleville, has been named assistant athletic director of Montclair State College, Upper Montclair, N. J. At 24, he is believed to be the youngest man in the country to hold such a position. Hennis is a 1966 Lincoln graduate and received his bachelor's degree from the University of Alabama and his masters from the University of Bridgeport in Connecticut. He has taught in Fort Pierce, Fla. He is the grandson of Mrs. Merle Radcliff, Circleville.

Ohio State's red-hot sophomores of 1971 hope to get the chance this season that they missed out on last season—that of dethroning UCLA as the national collegiate basketball champion.

A year ago the Scarlet and Gray, led by Luke Witte and Alan Hornyak, were given an excellent chance of ending UCLA's reign. They failed to qualify for the NCAA national championship post-season tournament when Minnesota beat them out for the Big Ten title.

Now seniors, Witte and Hornyak combined for 47 points Tuesday night in leading Ohio State to a 92-81 opening game victory over Wisconsin-Milwaukee. The 7-foot Witte scored 24 points and 15 rebounds in the pre-season Associated Press poll. Hornyak hit for 23 points.

"We did some things reasonably well, like play about 15 minutes without an error, but it was a sometime thing," commented Ohio State Coach Fred Taylor. "Part of that might have been because of their zone. It destroyed our tempo."

North Carolina State, No. 8 in the AP poll, trounced Appalachian State, 130-53 with star soph David Thompson tossing in 33 points and snaring 13 rebounds. In other games involving the AP Top Twenty, No. 15 Houston trampled Southern Mississippi, 104-97 and No. 17, Kansas State favored to win the Big Eight, beat San Diego State 79-67.

ABA Owners Slate Special Draft Meet

SAN DIEGO (AP) — The owner of the San Diego Conquistadors says American Basketball Association owners will meet in Louisville Dec. 11 and may hold a special draft of college underclassmen.

Leonard Bloom said Monday his first year team would have the first pick in such a draft, as well as the No. 1 choice in the regular year-end draft of college seniors.

Dolphins Trample Cards 31-10 In NFL Mismatch

By HUBERT MIZELL

MIAMI (AP) — Young Otto Stove streaked out of Paul Warfield's shadow to catch two touchdown passes for Miami's all-winning Dolphins and vowed not to remain backstage much longer.

"I love playing in Miami and winning is wonderful," said the sophomore pro from Iowa State, "but I'm not planning to sit on the bench for another season."

With the incomparable Warfield resting an injured leg Stove ran past befuddled St. Louis cornerback Norm Thompson to catch a 37-yard bomb from Earl Morrall and a 27-yarder from Jim Del Gaizo.

Miami bullied the Cardinals 31-10 in Monday night's laughable National Football League mismatch. It ended in a circus atmosphere with fans running amid players during the closing minutes while ABC-TV cameras worked at avoiding the exhibitions.

"These fans are crazy," said sportscaster Howard Cosell, who turned a threatening letter from a Miami follower over to the FBI earlier in the weekend. "It took cops and police dogs to handle them. This town has gone mad, but we didn't show those nuts on TV. We don't want this to start all over the country."

The Dolphins are 11-0, three games from becoming the NFL's first undefeated regular season team since the 1942 Chicago Bears. Ahead on the schedule are New England, the New York Giants and Baltimore.

Stove blazed past the napping Thompson and was as lonely as a hermit for the first touchdown shot from Morrall. Thompson later was carried bodily into the end zone from five yards out as Jim Killek smashed for another score.

Then, with the second-year defenseman from Utah on the ropes, Stove hit him again as

Name East Squad For Shrine Bowl

COLUMBUS, Ohio (AP) — Linebackers Willie Duke and Steve Donahue of Toledo and Ed Bolis of Cincinnati and defensive back Dan Handel of Kenyon were named Monday to the East squad in the first annual All-Ohio Shrine Bowl.

The NCAA-approved game will be played Dec. 9 in Ohio Stadium with proceeds going to the Cincinnati Burns Institute. A total of 50 senior all-stars from 30 Ohio colleges will play in the contest.

Hitchens Named Top MAC Player

OXFORD, Ohio (AP)—Miami's failure to win the Mid-American Conference and a bowl bid dim the glow of honors and rushing marks for running back Bob Hitchens.

Hitchens, named the MAC's offensive player of the year Monday, acted surprised when notified of the latest in a number of honors.

"I still appreciate things like that, but I guess the reason I didn't get too excited was because we didn't get our main objectives," the pile-driving runner said, referring to the MAC crown and Tangerine Bowl. "The awards would mean more to me if we had."

Hitchens, who also learned Monday that he wound up the year as the nation's major college rushing champion with an average of 137 yards a game, won the MAC offensive honor as a runaway choice by members of the MAC News Media Association.

Dave Juenger, a tight end-quarterback for Ohio University, was runnerup with nine of 39 votes. Hitchens had 24. Receiving one vote each were quarterbacks Bruce Arthur of Toledo and Greg Kokal of Kent State; halfbacks Larry Cates of Western Michigan and Eddie Woodard of Kent; Bowling Green tailback Paul Miles and Toledo split end Jeff Calabrese.

Link Taxes To Costs

COLUMBUS, Ohio (AP) — A bill is being prepared for introduction in the next few weeks designed to limit the effects of inflation on Ohioans' state income tax payments.

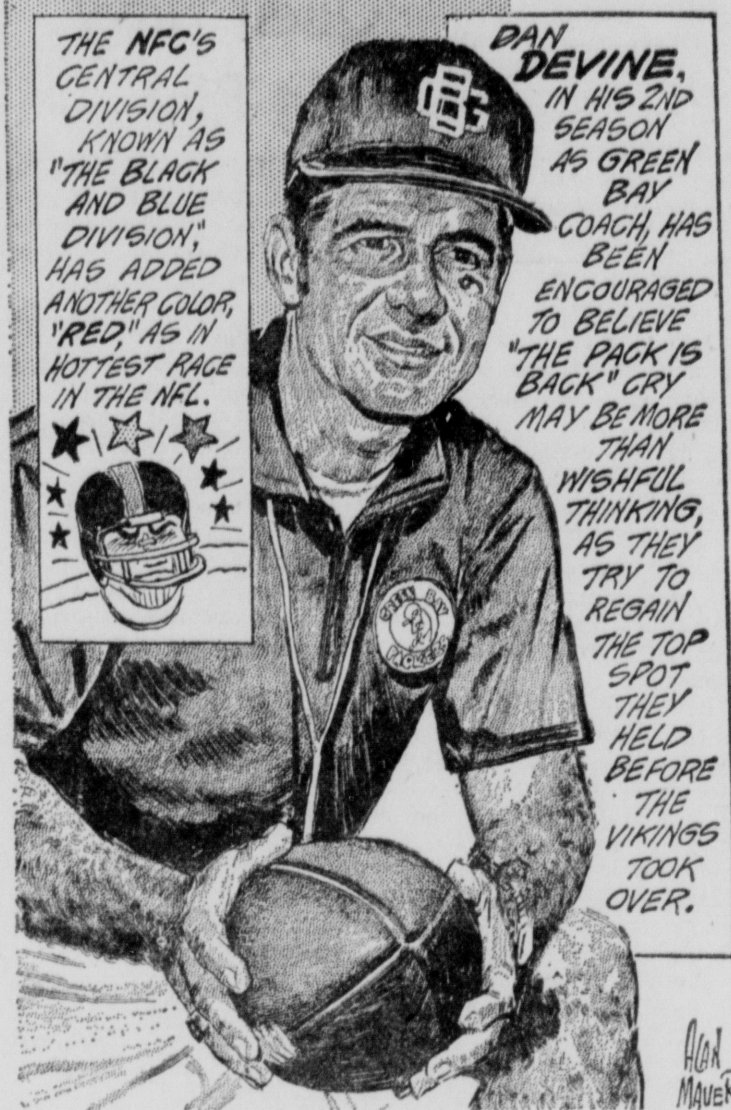

Sen. Paul Gillmor, R-12 Tiffin, says he doesn't think it's fair for Ohio workers to watch their pay raises eaten up by rising prices at the same time that they're lifted into higher tax brackets.

Gillmor's proposal would tie the brackets on Ohio's .5 to 3 per cent personal income tax to the cost of living.

For example, if the cost of living rose 20 per cent, the \$5,000 annual income cutoff for the .5 per cent bracket would go up to \$6,000.

Gillmor says he'll introduce his idea for consideration in a few weeks but doesn't expect any serious discussion on it until next year in the 110th General Assembly.

Link Taxes To Costs

COLUMBUS, Ohio (AP) — A bill is being prepared for introduction in the next few weeks designed to limit the effects of inflation on Ohioans' state income tax payments.

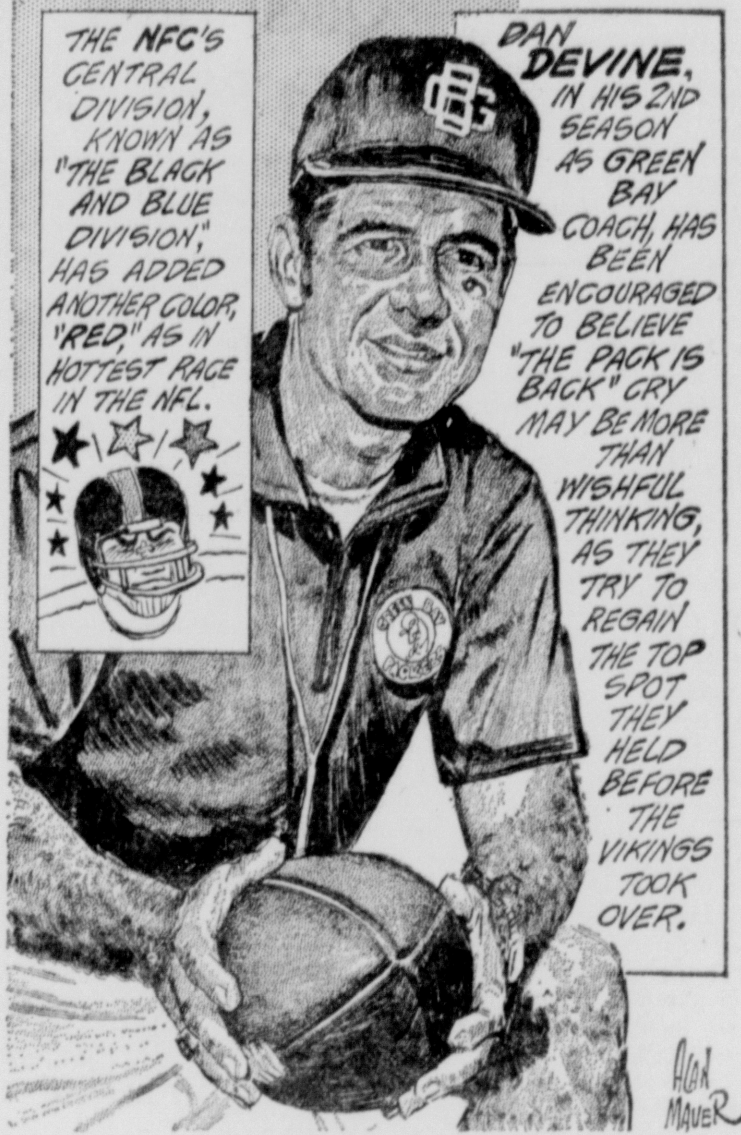

Sen. Paul Gillmor, R-12 Tiffin, says he doesn't think it's fair for Ohio workers to watch their pay raises eaten up by rising prices at the same time that they're lifted into higher tax brackets.

Gillmor's proposal would tie the brackets on Ohio's .5 to 3 per cent personal income tax to the cost of living.

For example, if the cost of living rose 20 per cent, the \$5,000 annual income cutoff for the .5 per cent bracket would go up to \$6,000.

Gillmor says he'll introduce his idea for consideration in a few weeks but doesn't expect any serious discussion on it until next year in the 110th General Assembly.

Ohio House Panel Opens Hearings On Lottery Bill

COLUMBUS, Ohio (AP)—The House State Government Committee opens hearings tonight on a Senate-passed bill to authorize Ohio to operate a lottery for general-purpose revenue.

Sponsors predict the proposed constitutional amendment will win legislative approval and be cleared for a spot on next May's primary ballot. A similar proposal was ruled off last May's ballot by the Ohio Supreme Court on a procedural technicality.

Sen. Ronald Mottl, D-24 Parma, the lead sponsor, said it is essentially the same as the one passed by the legislature last year "except we've tightened up the language a little." The proposal stipulates that money derived by the state from the sale of lottery tickets would go into the general revenue fund.

It would be up to the legislature to decide details on how the lottery actually would work.

Besides the lottery resolution, State Government Chairman Robert Manning, R-94 Akron, also called for testimony tonight on several other proposed constitutional changes.

They also were ruled off the 1972 primary ballot after being submitted as a package in a manner the Supreme Court said was improper. The plan now is for the amendments to be considered and acted upon separately.

Among them are proposals that would require the governor and lieutenant governor to run as a team — like the President and vice president, authorize reimbursement of members of the General Assembly for their expenses and revise organizational procedures of the legislature.

The lottery and other constitutional amendments are among a handful of matters expected to be taken up by the current lame duck legislative session. It is expected to adjourn in December, clearing 110th General Assembly, which begins deliberations New Year's Day.

Carbon Monoxide Makes Six Ill

Three youngsters and three adults were given treatment at Mt. Carmel Hospital very early Tuesday morning for symptoms of carbon monoxide poisoning.

The six, and three other adult passengers in the auto, were taken to the Columbus hospital by the Scioto Twp. fire squad suffering from excessive monoxide gas inhalation. The group's automobile, an 11-year-old vehicle, was impounded in Obetz and will not be released until defects are repaired.

Pt. Ted Coon, of the local Highway Patrol, reported that the youngsters, Brian, Diana and David Robinson, age 7, 14 and 9, and Mrs. Dorothy Six, 19, were bleeding from the mouth and nose and vomiting when he arrived. Michael Six, 22, Columbus, and Mrs. Valcie Robinson, 32, of Portsmouth exhibited less severe symptoms of nausea.

Robert Collins, 26, of Portsmouth, was owner and driver of the vehicle, which was enroute to Columbus. When the passengers in the back seat were discovered to be getting sick, Collins pulled the car to the side of Route 3 at Duval Road and put all passengers out, intending to go for help.

The six most seriously ill were riding in the back set of the sedan.

prove guilt. These are purpose, knowledge, recklessness, and negligence.

For the first time, under the bill, the state would have rules for holding organizations criminally liable. They would make it possible to charge an organization with any offense. In place of the usual penalties, the bill contains a schedule of fines that could be collected upon conviction. These would range from \$100,000 for murder down to \$2,000 for unclassified misdemeanors.

The bill also provides definitions for defense. These include execution of a public duty, forced perpetration, entrapment, ignorance or mistake of fact or law, intoxication, insanity, and justifiable use of a deadly or non-deadly force.

In a Nation it proves a "comprehensive catalog" of criminal offenses, including their classification into 12 degrees. They are felonies in the first, second, third, and fourth degrees and the same for misdemeanors and minor misdemeanors. The bill further provides a broad conspiracy of offense, and general attempt of offense, and an offense of engaging in organized crime.

The bill makes some modifications in firearms control laws, and provides for control of explosives, incendiary devices, heavy military weapons, and other dangerous weapons.

It retains the concept of indeterminate sentences for felonies, but permits a trial court to fix a minimum term within specified limits. It also permits a fine to be levied—in addition to a prison sentence—for the commission of a felony, with the exception of murder and in cases involving repeat or dangerous offenders.

The bill permits a trial court to reduce all felonies one degree for sentencing purposes "in proper cases" and provides detailed criteria for imposing and modifying sentences. All offenses could offer probation except murder. However, repeaters or dangerous offenders could not be placed on probation.

In another provision, the measure would allow "shock" parole, in which a prisoner judged deserving of it would be released on parole after undergoing the initial shock of confinement.

The bill also makes necessary "housekeeping" provisions and eliminates obsolete and duplicate provisions, the LSC analysis said.

Under the so-called "catalog" system provided, minimum and maximum sentences would be established for each of the 12 categorized offenses. Senate amendments made significant changes in the House version as to minimum sentences, generally making them shorter, so that these sections remain to be compromised.

The legislature made eleven broad classifications of crimes and within each, spelled out specific offenses and determined how to categorize them as to felony, misdemeanor, or minor misdemeanor; and first, second, third, and fourth degree.

For example, under homicide and assault, voluntary manslaughter is classified as a third-degree felony. Felonious assault is a second-degree felony and simply assault a first degree misdemeanor. "Menacing" is an offense rated in the same classification as a fourth-degree misdemeanor.

The other broad classifications are kidnapping and extortion, sex offenses, arson and related offenses; robbery, burglary, and trespass; theft and fraud, gambling, offenses

OU-Lancaster Sets Winter Registration For Dec. 6, 7

Ohio University-Lancaster campus has arranged a schedule for registration for winter quarter classes on Dec. 6 and 7.

Full time students are asked to register on the first day, Dec. 6, in the following order: W through Z, 1:30 to 3:30 p.m.; S through V, 3:30 to 5:30 p.m.; A through G, 5:30 to 7:30 p.m.; H through R, 7:30 to 9:30 p.m.; M through T, 9:30 to 11:30 p.m.

All part-time students will register on Dec. 7 in the same sequence as listed above. Students will be asked to furnish proper registration.

Any student unable to register during their assigned time may register during the last hour of their appointed day.

Fees are payable at the time of registration by check or money order. Fees at the Lancaster Campus are \$240 (comprehensive fee for 11 through 13 hours) and \$22 per quarter hour up to 11 hours for all undergraduate students.

For students who find it impossible to register on Dec. 6 or 7 there will be a special clean-up registration Jan. 2 from 9 to 11 a.m. and 4:30 to 7:30 p.m. Students who register after this date are subject to a \$10 late fee.

First day of classes is Jan. 3. The last day for schedule adjustments is Jan. 15. The

against the public peace, offenses against the family, offenses against justice and public administration, and miscellaneous.

The LSC analysis said in outlining the bill's purpose that "in the course of time, successive General Assemblies have made many additions to the criminal law designed to meet the problems of the moment." This has caused confusion to "professionals and laymen alike." The bill is designed to retain many old provisions that "retain their vitality" but to do away with those which have "lost any contemporary relevance," the commission said.

5 Persons Held In Xavier Death

CINCINNATI, Ohio (AP)—Five young Cincinnatians were held here today on first-degree murder charges stemming from the rifle slaying of a student during a robbery at Xavier University Nov. 11.

A sixth man, Dan Martin, 20, of Cincinnati, was sought on the same charge in the shooting of Thomas Keith Jenkins Jr., 18, of Pasadena, Md., in a student center game room.

Police arrested four of the men Monday at different locations here. Vernon Childs, 18; Willis McNeil Jr., 26; Ronald Amos, 23; and Wendell Drake, 22, were taken into custody by heavily armed officers.

Stephen Lewis, 23; surrendered to authorities Monday night.

Quell Navy Brig Riot

NORFOLK, Va. (AP)—The Navy said today that it is questioning 33 sailors about two disturbances Sunday at its Camp Allen Correctional Center.

A Navy spokesman said the first incident began shortly after noon Sunday as a fight between one black and one white inmate, and about six other prisoners reportedly became involved.

When Marine sentries attempted to quell the fight, the spokesman said, a total of 12 black prisoners rebelled and took over a dormitory section.

This disturbance was quieted and the rebelling prisoners were locked in individual cells, the Navy said.

The situation seemed under control, the Navy said, until several confined inmates set fire to the mattresses in their cells. The prisoners were taken to another dormitory section but took it over at about 6 p.m., the spokesman said.

Navy officials said they had the situation under control there by 8 p.m., with black and white prisoners then lodged in separate sections.

Ohio House Panel Opens Hearings On Lottery Bill

COLUMBUS, Ohio (AP)—The House State Government Committee opens hearings tonight on a Senate-passed bill to authorize Ohio to operate a lottery for general-purpose revenue.

POW Parcel Limit Set

NEW YORK (AP) — Each American prisoner of war in North Vietnam will be allowed to receive an 11-pound parcel and a card from his family for Christmas, says Cora Weiss, co-chairman of the Committee of Liaison with Families of Servicemen Detained in North Vietnam.

Mrs. Weiss said Sunday she had received word from a North Vietnamese spokesman that the packages must be sent by next of kin by post from Moscow. Packages sent by any other way will not be received. Cards may be sent by post or via the Committee of Liaison, 335 W. 42nd St., New York, N.Y. 10036, she said.

Mrs. Weiss said routing for the parcels and cards sent by the POWs' families is handled by the U.S. Post Office, which sends them via Geneva and Moscow to Hanoi by a special agreement established in 1968. She said families sending parcels and cards through this routing should address them to the serviceman's name, the serial number and camp of detention to "Hanoi, D.R.V.N., via Moscow."

Carbon Monoxide Makes Six Ill

Three youngsters and three adults were given treatment at Mt. Carmel Hospital very early Tuesday morning for symptoms of carbon monoxide poisoning.

The six, and three other adult passengers in the auto, were taken to the Columbus hospital by the Scioto Twp. fire squad suffering from excessive carbon monoxide gas inhalation. The group's automobile, an 11-year-old vehicle, was impounded in Oetz and will not be released until defects are repaired.

Pt. Ted Coon, of the local Highway Patrol, reported that the youngsters, Brian, Diana and David Robinson, age 7, 14 and 9, and Mrs. Dorothy Six, 19, were bleeding from the mouth and nose and vomiting when he arrived. Michael Six, 22, Columbus, and Mrs. Valcie Robinson, 32, of Portsmouth exhibited less severe symptoms of nausea.

Robert Collins, 26, of Portsmouth, was owner and driver of the vehicle, which was enroute to Columbus. When the passengers in the back seat were discovered to be getting sick, Collins pulled the car to the side of Route 3 at Duval Road and put all passengers out, intending to go for help.

The six most seriously ill were riding in the back set of the sedan.
